Studies in Historical Linguistics and Language Change. Grammaticalization, Refunctionalization and Beyond - Dorien Nieuwenhuijsen 2019-10-23

The present volume examines the usefulness of a particular set of concepts and processes of change studying their applicability to a range of linguistic changes in Spanish and Latin that cannot be easily or can only be partially accounted for within the framework of grammaticalization. Rather than challenging the insights of grammaticalization theory, the different contributions to this monograph demonstrate that exaptation, capitalization, refunctionalization and adfunctionalization, as well as changes motivated by rhetorical guidelines, constitute interesting and valuable notions that allow for a better understanding of specific language changes in Spanish and, by extension, of language change in general.

Ancient Hebrew Dictionary - Jeff A. Benner 2021-06-28

Whether you know Hebrew or not, this book will provide you with a quick reference resource for learning the meaning of many Hebrew words that lie beneath the English translations, which will open new doors for you into Biblical interpretation. The Hebrew language of the Bible must be understood from its original and Ancient Hebrew perspective. Our interpretation of a word like "holy" is an abstract idea, derived out of a Greco-Roman culture and mindset, which is usually understood as someone or something that is especially godly, pious or spiritual. However, the Hebrew word קדוש (qadosh) means, from an Ancient Hebrew perspective, unique and is defined in this dictionary as: "Someone or something that has, or has been given the quality of specialness, and has been separated from the rest for a special purpose." With this interpretation, we discover that the nation of Israel is not "holy," in the sense of godliness or piety, but is a unique and special people, separated from all others to serve God. This Biblical Hebrew dictionary contains the one thousand most frequent verbs and nouns found within the Hebrew Bible. Each word is translated and defined from its original concrete Ancient Hebrew perspective, allowing for a more

accurate interpretation of the text. In addition to the one thousand verbs and nouns, the appendices in the book include a complete list of Hebrew pronouns, prepositions, adverbs, conjunctions and numbers.

The Scholar as Human - Anna Sims Bartel 2021-01-15

The Scholar as Human brings together faculty from a wide range of disciplines—history; art; Africana, American, and Latinx studies; literature, law, performance and media arts, development sociology, anthropology, and Science and Technology Studies—to focus on how scholarship is informed, enlivened, deepened, and made more meaningful by each scholar's sense of identity, purpose, and place in the world. Designed to help model new paths for publicly-engaged humanities, the contributions to this groundbreaking volume are guided by one overarching question: How can scholars practice a more human scholarship? Recognizing that colleges and universities must be more responsive to the needs of both their students and surrounding communities, the essays in *The Scholar as Human* carve out new space for public scholars and practitioners whose rigor and passion are equally important forces in their work. Challenging the approach to research and teaching of earlier generations that valorized disinterestedness, each contributor here demonstrates how they have energized their own scholarship and its reception among their students and in the wider world through a deeper engagement with their own life stories and humanity. Contributors: Anna Sims Bartel, Debra A. Castillo, Ella Diaz, Carolina Osorio Gil, Christine Henseler, Caitlin Kane, Shawn McDaniel, A. T. Miller, Scott J. Peters, Bobby J. Smith II, José Ragas, Riché Richardson, Gerald Torres, Matthew Velasco, Sara Warner Thanks to generous funding from Cornell University, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellopen.org) and other repositories.

Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy Francesca Helm 2015-12-02

The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

Officially Dead - Richard Prescott 2014

Global Perspectives on Recognising Non-formal and Informal Learning Madhu Singh 2015-06-05

This book deals with the relevance of recognition and validation of non-formal and informal learning education and training, the workplace and society. In an increasing number of countries, it is at the top of the policy and research agenda ranking among the possible ways to redress the glaring lack of relevant academic and vocational qualifications and to promote the development of competences and certification procedures which recognise different types of learning, including formal, non-formal and informal learning. The aim of the book is therefore to present and share experience, expertise and lessons in such a way that enables its effective and immediate use across the full spectrum of country contexts, whether in the developing or developed world. It examines the importance of meeting institutional and political requirements that give genuine value to the recognition of non-formal and informal learning; it shows why recognition is important and clarifies its usefulness and the

role it serves in education, working life and voluntary work; it emphasises the importance of the coordination, interests, motivations, trust and acceptance by all stakeholders. The volume is also premised on an understanding of a learning society, in which all social and cultural groups, irrespective of gender, race, social class, ethnicity, mental health difficulties are entitled to quality learning throughout their lives. Overall the thrust is to see the importance of recognising non-formal and informal learning as part of the larger movement for re-directing education and training for change. This change is one that builds on an equitable society and economy and on sustainable development principles and values such as respect for others, respect for difference and diversity, exploration and dialogue.

Converso Non-Conformism in Early Modern Spain - Kevin Ingram 2018-12-06

This book examines the effects of Jewish conversions to Christianity in late medieval Spanish society. Ingram focuses on these converts and their descendants (known as conversos) not as Judaizers, but as Christian humanists, mystics and evangelists, who attempt to create a new society based on quietist religious practice, merit, and toleration. His narrative takes the reader on a journey from the late fourteenth-century conversions and the first blood purity laws (designed to marginalize conversos), through the early sixteenth-century Erasmian and radical mystical movements, to a Counter-Reformation environment in which conversos become the advocates for pacifism and concordance. His account ends at the court of Philip IV, where growing intolerance towards Madrid's converso courtiers is subtly attacked by Spain's greatest painter, Diego Velázquez, in his work, Los Borrachos. Finally,

Ingram examines the historiography of early modern Spain, in which he argues the converso reform phenomenon continues to be underexplored.
