How to Answer Interview Questions - Rocco Mela 2021-07-20

Here we are! You have managed to get a job interview by dint of sending CVs like an automatic machine gun! The time has come! After so much wandering, a company has decided to see you first-hand! All the hours spent filing your resume beyond belief, every evening spent behind the PC sifting through job offers, have finally served a purpose! But now? What to do? At school, at university, no one taught you how to approach a job interview. Panic: what answer and how to answer to the questions, talk little or a lot, dress elegant or sober, remain motionless or move with the body, shake hands or not, browse the company's website or get to

the interview in a naïve way, in order to be yourself? If we would like to give an answer to all the mental blowjobs that will turn in your head, we just have to say that the truth is simple, damn simple. But, as usual, when something is too simple, we don't consider it a viable option! Since you bought this book, you are already on the right track. And I'll tell you the secret right away! To successfully pass a job interview, you need study, method and experience: Study because we need to examine our potential employer thoroughly, understand what he is looking for and what he expects from us Method because without a plan you can't go anywhere. Don't improvise. Train like a boxer. Action and reaction. You are on the battlefield, and that employment contract must be yours! Okay, you will raise hell for it, but with method and discipline. Experience because the first few times, all your older friends in the world of work will tell you, you will miss. You will be discarded. Not because you're not a good fit for that job, but because you still won't have the experience of a commander who has won 100 battles. It is normal, do not be discouraged. The sooner you understand where you went wrong in the first few battles, the sooner you will start winning! Are you up to here? Well, you are ready to read the book!
