The chapters cover a wide selection of topics related to applied linguistics, second language acquisition, social psychology, sociology, methodology and historical issues. The book advances thinking on cutting-edge topics in these diverse areas, providing a wealth of information for both students and established scholars that show the continuing and future importance of Gardner and Lambert's ideas.

Democracy for Sale - Edward Aspinall 2019-04-15

Democracy for Sale is an on-the-ground account of Indonesian democracy, analyzing its election campaigns and behind-the-scenes machinations. Edward Aspinall and Ward Berenschot assess the informal networks and political strategies that shape access to power and privilege in the messy political environment of contemporary Indonesia. In post-Suharto Indonesian politics the exchange of patronage for political support is commonplace. Clientelism, argue the authors, saturates the political system, and in Democracy for Sale they reveal the everyday practices of vote buying, influence peddling, manipulating government programs, and skimming money from government projects. In doing so, Aspinall and Berenschot advance three major arguments. The first argument points toward the role of religion, kinship, and other identities in Indonesian clientelism. The second explains how and why Indonesia's distinctive system of free-wheeling clientelism came into being. And the third argument addresses variation in the patterns and intensity of clientelism. Through these arguments and with comparative leverage from political practices in India and Argentina, Democracy for Sale provides compelling evidence of the importance of informal networks and relationships rather than formal parties and institutions in contemporary Indonesia.

Language, Culture, and Society - Christine Jourdan 2006-05-11

Language, our primary tool of thought and perception, is at the heart of who we are as individuals. Languages are constantly changing, sometimes into entirely new varieties of speech, leading to subtle differences in how we present ourselves to others. This revealing account brings together eleven leading specialists from the fields of linguistics, anthropology, philosophy and psychology, to explore the fascinating relationship between language, culture, and social interaction. A range of major questions are discussed: How does language influence our perception of the world? How do new languages emerge? How do children learn to use language appropriately? What factors determine language choice in bi- and multilingual communities? How far does language contribute to the formation of our personalities? And finally, in what ways does language make us human? Language, Culture and Society will be essential reading for all those interested in language and

its crucial role in our social lives.

The Land of Five Towers (English Edition) - A. Fuadi 2013-12-17

"Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase man jadda wajada. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to build Komunitas Menara, a volunteer-based social organization which aims to provide free schools, libraries, clinics and soup kitchens for the less fortunate. ENGLISH SPEAKING FOR INFORMAL INTERACTION - Sudiran 2020-02-29

In an effort to implement the curriculum, it is urgent that material development be synergized with the curriculum so as to meet its proper and applicable implementation. A number of grants have been awarded to our faculty members for designing instructional materials.

Systematical arrangement of instructional materials is to minimize the gap between planned curriculum and implemented curriculum. FTTE UMM keeps striving to develop curriculum through a long-listed agenda: designing course outlines, materials, media, and evaluation instruments. Those four key components fulfill the National Standard of Higher Education. Until recently, FTTE UMM has developed instructional materials for 27 selected courses, comprising 9 pedagogy courses and 18 content specific courses. This Speaking book is the manifestation of our incessant contribution to the field of education. Not only does it contain

several relevant topics, but it is equipped with various activities to accommodate students with active, meaningful, and independent learning as well. It is then specially wrapped in the form of hybrid learning materials. Finally, it is highly expected that FTTE UMM, through its continuous efforts, could achieve the standards as stipulated by the Curriculum of Higher Education, aiming for the National Standard of Higher Education in Indonesia.

A Practical Guide to Spoken English - Dr P.N. Gupta 2014-10-14

Teaching of English in India has been traditionally grammar based. The teacher teaches a good deal of grammar; assigns exercises in class or as homework and makes a lot of corrections. Such painstaking efforts on the part of the teacher are, of course, helpful in learning the language but does not much help the student to use the language in day-to-day conversation. Leaving aside the traditional method of dealing with grammar as an isolated subject, the present book offers a specific course in spoken English that focuses on the language of interaction and social exchanges. Its main emphasis is on developing communicative ability of the learner.
