This Is Not America Alan Friedman 2017-07-11
What has happened to America, and what's become of the American dream? Behind the self-confident image of world's most influential country, we now see a nation tearing itself apart. The United States may be arguably the world's only superpower, but its internal tensions are a symptom of suffering and division, a condition only exacerbated by the election of President Donald Trump. In this searing account, expatriate journalist Alan Friedman returns after thirty years in Europe and examines the real America through the mouths of its citizens. Set against the backdrop of the 2016 presidential election campaign and the inauguration of President Trump, Friedman tells a vivid story of terrible inequality - from the excesses of Wall Street to the grinding poverty of Mississippi - and explores the issues, from racism and gun control to Obamacare, that have polarised a nation. Drawing on his personal interviews with Trump and with Russia's President Putin, Friedman paints a detailed portrait of the new leader of the free world and explores the real risks of the Trump presidency for America and for the world. Dark and provocative, This Is Not

America may just be the most important book of the year.

A Practical Guide for Translators - Geoffrey Samuelsson-Brown 2010-03-24

This is the fifth revised edition of the best-selling *A Practical Guide for Translators*. It looks at the profession of translator on the basis of developments over the last few years and encourages both practitioners and buyers of translation services to view translation as a highly-qualified, skilled profession and not just a cost-led word mill. The book is intended principally for those who have little or no practical experience of translation in a commercial environment. It offers comprehensive advice on all aspects relevant to the would-be translator and, whilst intended mainly for those who wish to go freelance, it is also relevant to the staff translator as a guide to organisation of work and time. Advice is given on how to set up as a translator, from the purchase of equipment to the acquisition of clients. The process of translation is discussed from initial enquiry to delivery of the finished product. Hints are given on how to assess requirements, how to charge for work, how to research and use source material, and how to present the finished product. Guidance is given on where to obtain further advice and professional contacts. This revised edition updates practices in the translation profession and considers the impact of web-based translation offerings. Industry and commerce rely heavily on the skills of the human translator and his ability to make intellectual decisions that is, as yet, beyond the capacity of computer-aided translation.

MEMORIES - Alex Krum 2016-09-03

«Memories» - is a remembrance of a time and of a place. Here, in this book, this time and place is Paris, 2013-2016. Our first trip to Paris was rather random. Once, discussing a place to go for a New Year's Eve, someone jokingly suggested France, Paris to be precise. This came out from a famous phrase of Ilya Ehrenburg: 'To see Paris and to die'. And then we thought to ourselves: 'why not, indeed!' Thus it happened - our first trip to Paris in 2013. A year later being in Paris for the New Year's Eve became a tradition. Over these years dozens of places were seen by my camera, many a photos were taken. Naturally, I ended up with, putting it mildly, a vast number of images. Some of them depict rather well-known, touristy places; more often they show life of the city- its everyday, ordinary life. I mean, clearly Paris is not just a city, given its significance in European history and for tourism. Nonetheless, in many respects it is a city just like many others. One can find there things like usual urban landscapes, people hurrying to work or strolling in parks on the way from home to cinema, children eating sweets, parents waiting for a bus. In other words, photos in this book reflect the fabric of everyday life in a city that happens to be full of history and tourists. This city is my main model. In the end of the day, every late December I am not going to Paris to see people (I do not have anybody there - no relatives, no friends, no acquaintances). I am going to Paris to see Paris.

This book is my invitation to come along with me and see Paris as a place with everything that a modern city has: houses, parks, squares, historical places, bus stations, business and shopping centres, restaurants, bridges, construction works, city's multi-ethnic hosts and multi-national guests, and much more.

MARGARET OGILVY - J.M. BARRIE 1896

The Godfather of British Jazz - Clark Tracey 2016

This is the first book about the life of jazz pianist and composer Stan Tracey CBE (1926-2013). Drawn largely from his personal diaries and some of his many interviews, his son Clark Tracey pieces together what made the late Stan Tracey a unique character in jazz music. Stan's wit and wisdom also come shining through in abundance in this long overdue account of one of the UK's most important jazz musicians. In a career that spanned 70 years, Stan Tracey recalls his earliest memories in war torn London and his first experiences of hearing jazz. As a teenager, he joined ENSA and the RAF Gang Show and for the next three years played at more venues than many musicians do in a lifetime. Once demobbed, Stan befriends pianist Eddie Thomson, vibist and drummer Victor Feldman and clarinetist Vic Ash and begins his career in music. He toured with Kenny Baker's band and the Kirchin Band before joining the Ted Heath Orchestra, then began recording

under his own name. He was asked by Ronnie Scott to be the house pianist at Scott's new club, where Stan's legendary status grew for the next six years. He accompanied giants of American jazz such as Stan Getz, Sonny Rollins, Roland Kirk, Dexter Gordon, Freddie Hubbard and many others. During this period he wrote and recorded the seminal album Under Milk Wood, which to this day remains his best selling work. Stan left Ronnie's club following a drug addiction and in the 1970s found himself penniless. His wife Jackie employed her skill in the music business as an A&R from previous years and began presenting concerts to keep Stan afloat, as he formed new musical friendships in the free/improvised idiom at that time, such as Mike Osborne and Keith Tippett. Commissions for suites emerged and Stan's writing skills found an outlet again through the formation of his various groups that were to last for nearly 30 years. Stan's achievements and awards are ample and in many cases unique. Recipient of an OBE and a CBE, Stan also received several lifetime achievement awards and in his last year became the first recipient of the Ivor Novello Jazz Award. The book includes a complete discography of all commercial recordings featuring Stan Tracey, compiled by Stephen Didymus.

A Tribute To-- Ella Fitzgerald - Ella Fitzgerald 1999

In Search of Buddy Bolden - Donald M. Marquis 2005-09-01

The beginnings of jazz and the story of Charles "Buddy" Bolden (1877-1931) are inextricably intertwined. Just after the turn of the century, New Orleanians could often hear Bolden's powerful horn from the city's parks and through

dance hall windows. Despite his lack of formal training, his unique style—both musical and personal—made him the first “king” of New Orleans jazz and the inspiration for such later jazz greats as King Oliver, Kid Ory, and Louis Armstrong. For years the legend of Buddy Bolden was overshadowed by myths about his music, his reckless lifestyle, and his mental instability. In *Search of Buddy Bolden* overlays the myths with the substance of reality. Interviews with those who knew Bolden and an extensive array of primary sources enliven and inform Donald M. Marquis’s absorbing portrait of the brief but brilliant career of the first man of jazz. This paperback edition includes a new preface and appendix relating events and discoveries that have occurred since the book’s original publication in 1978.

Affective Health and Masculinities in South Africa - Hans Reihling 2020-04-24

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global

health.
