Applying IFRS Standards - Ruth Picker 2019-06-24

Understanding the main concepts of IFRS Standards The fourth edition of Applying IFRS Standards explains the core principles of International Financial Reporting (IFRS) Standards. It also addresses the skills needed to apply the standards in business environments. The book begins with an overview of the

International Accounting Standards Board (IASB) and how it establishes accounting standards. The general book topics are then covered in detail and include: income taxes, financial instruments, fair value measurement, property, inventories, employee benefits and more. Discussion questions, exercises and references are provided throughout the book.

Principles of Cost Accounting - Edward J. Vanderbeck 1998-06-15

This text provides students with a thorough, but abbreviated, understanding of concepts, behavior, and accounting techniques applicable to manufacturing cost systems. It is designed for the brief cost accounting course found in career and community colleges.

Cost Accounting, Student Value Edition - Charles T. Horngren 2014-01-01

Electrical Engineering in Context: Smart Devices, Robots & Communications - Roman Kuc 2014-03-12

ELECTRICAL ENGINEERING IN CONTEXT: SMART DEVICES, ROBOTS & COMMUNICATIONS by bestselling author Roman Kuc describes the basic components and technologies that make today's computer-assisted systems operate and cooperate, inviting the reader to understand by participating in the design process. Directed at the undergraduate electrical engineering student, this book starts with the basics and requires a working knowledge of algebra. Rather than simple plug-and-chug exercises, the book teaches sophisticated problem-solving and design tools. Students will learn through designing digital displays, extracting information from signals, and optimizing system performance through parameter value selection and observing graphical data displays. Animations showing dynamic system behavior and relating to the book figures are available through the book's companion site. At the completion of the course, students will have an understanding of the capabilities of current digital devices and ideas for possible new applications. This will benefit students in other courses requiring quantitative skills and in their profession. To help accomplish this tall order, the book is written in a graduated intensity that can be adapted to the specific needs and talents of each student: Basic commands and graphs are used in first-level problems that illustrate device performance while varying parameter values and in designs that are open-ended, driven by student curiosity. Some problems can be solved using software packages, but many exercises are for paper and pencil solution. MATLAB based examples and problems are also included for users comfortable with computer programming. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Managerial Accounting (16th Edition) - Ray H. Garrison 2020

Financial Accounting with International Financial Reporting Standards - Jerry J. Weygandt 2018-08-06

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples,

discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

Cost Accounting - Adolph Matz 1976

Introduction to Managerial Accounting - Peter C. Brewer 2007-11-01

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.
