Computer Networking: A Top-Down Approach Featuring the Internet, 3/e - James F. Kurose 2005

Think Java - Allen B. Downey 2016-05-06

Currently used at many colleges, universities, and high schools, this hands-on introduction to computer science is ideal for people with little or no programming experience. The goal of this concise book is not just to teach you Java, but to help you think like a computer scientist. You'll learn how to program—a useful skill by itself—but you'll also discover how to use programming as a means to an end. Authors Allen Downey and Chris Mayfield start with the most basic concepts and gradually move into topics that are more complex, such as recursion and object-oriented programming. Each brief chapter covers the material for one week of a college course and includes exercises to help you practice what you've learned. Learn one concept at a time: tackle complex topics in a series of small steps with examples Understand how to formulate problems, think creatively about solutions, and write programs clearly and accurately Determine which development techniques work best for you, and practice the important skill of debugging Learn relationships among input and output, decisions and loops, classes and methods, strings and arrays Work on exercises involving word games, graphics, puzzles, and playing cards

The 2030 Spike - Colin Mason 2013-06-17

The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, The 2030 Spike serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a

better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

Countering Violent Extremism in Pakistan - Anita M. Weiss 2021-04-29

This book identifies and analyzes the impact of the various ways in which local people are responding, taking stands, recapturing their culture, and saying 'stop' to the violent extremism that has manifested over the past decade (even longer) in Pakistan. Local groups throughout Pakistan are engaging in various kinds of social negotiations and actions to lessen the violence that has plagued the country since the 1979 Soviet invasion of Afghanistan which let loose abarrage of violence that overflowed into its borders. In so many ways, Pakistanis are engaging in powerful actions that transform how people think about their own society, impeding extremists' rants while acting on 'envisioning alternative futures'. This book, hence, focuses on finding the sparks of hope that local people are creating to counter violent extremism based on close ethnographic study of ground realities about not only what people are doing but why they are selecting these kinds of actions, how they are creating alternative narratives about culture and identity, and their vision of a future without violence. This book is also designed to celebrate what is flourishing in cultural performances, music, social activism, and the like in Pakistan today because of people's commitment to take stands against extremism.

The Conversation That Matters Most - Dewitt Rowe 2010-05-03

In The Conversation That Matters Most, DeWitt Rowe takes his readers on a unique and fascinating journey of self-exploration and discovery. The author not only guides us toward a complete reevaluation of how we view success; he convinces us that the way we define it and pursue it must also be reexamined. How often do we stop and question the assumptions that have defined us? Are we more intelligent than we have been led to believe? Do our idiosyncrasies make us strange...or simply unique? How often do we make a decision based on what's expected of us, rather than on our innate sense of what works? DeWitt delves into areas

that are rarely discussed, areas that reward us with a richness of comprehension, awareness, discovery, and wisdom. Every page is a reminder of the control we have over our lives if only we can understand how to use that control in a positive and result-oriented manner. Utilizing this book's guides and lessons, we can be assured of a fuller and more satisfying life.

Mathematics for Elementary School Teachers Tom Bassarear 2015-01-01

MATHEMATICS FOR ELEMENTARY SCHOOL TEACHERS, 6E offers future teachers a comprehensive mathematics course designed to foster concept development through examples, investigations, and explorations. In this text, intended for the one- or two-semester course required of Education majors, Bassarear demonstrates that there are many paths to solving a problem, and sometimes problems have more than one solution. The author presents real-world problems—problems that require active learning in a method similar to how archaeologists explore an archaeological find: they carefully uncover the site, slowly revealing more and more of the structure. Visual icons throughout the main text allow instructors to easily connect content to the hands-on activities in the corresponding Explorations Manual. With this exposure, future teachers will be better able to assess student needs using diverse approaches. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Less Fret, More Faith Max Lucado 2017-09-12

Anxiety comes with life. But it doesn't have to dominate your life. Do you ever have an overwhelming sense of dread? Bombarded with "what-if's," always on edge, preparing for something bad to happen? According to one research program, anxiety-related issues are the number one mental health problem among women and are second only to alcohol and drug abuse among men. Even students are feeling it. One psychologist reports that the average high school kid today has the same level of anxiety as the average psychiatric patient in the early 1950s. Chances are, you or someone you know seriously struggles with anxiety. New York Times bestselling author and pastor Max Lucado knows what it feels like to be overcome by the worries and fear of life, which is why he is dedicated to helping readers take back control of their minds and, as a result, their lives. In this 64-page booklet based on one of Max's bestselling books, *Anxious for Nothing*, you'll find: An 11-week practical plan to overcome anxiety Weekly Scripture verses for meditation Weekly prayers to reframe anxious thoughts Stop letting anxiety rule the day and join Max on the journey to true freedom by the power of the Spirit.

Creating a Cash Cow in Kenya Nat Robinson 2015-12-24

"What started as an eight-month assignment turned into a six-year adventure and the creation of a social business to help Kenya's farmers lift themselves out of poverty. The social business, Juhudi Kilimo, provides microloans to enable smallholder farmers to buy productive assets, such as cows, tools and so on. Since its foundation in 2009, Juhudi Kilimo has provided over 50,000 loans worth \$30 million and financed the purchase of 23,100 cows by some of Kenya's poorest farmers. In its six years Juhudi managed to rack up an impressive list of international investors The Rockefeller Foundation, The Ford Foundation, Acumen Fund, Soros Economic Development Fund, Grameen Foundation, Deutsche Bank and Kiva.org. The company also won a Charles Schwab Social Entrepreneur of the Year Award and part of CIO Magazine's top 100 list. The challenges faced by the company in its early years reveal a dark underbelly of investor greed, corruption and the deep multicultural misunderstandings that can lead to conflicts. The company was driven by a young entrepreneur from the US, who admits he had no idea what he was doing but learned along the way. The lessons he presents here can help guide those starting new ventures or trying to defy the odds with a new social business in East Africa. The business stories are intertwined with his adventures, racing camels, running from rhinos and much more."--Summary from Amazon.

Oxford International Primary Maths, Stage 5 - Caroline Clissold 2014-01-30

Oxford International Primary Maths takes an enquiry-based approach to learning mathematics, engaging students in the topics through asking questions that make them think, and activities that encourage them to explore and practise. As students progress through the course, they not only learn about mathematical concepts, but also how to use problem solving techniques in their approach to studying the subject. The topics are explored in careful stages, introducing different aspects at a pace that allows students to absorb and practise what they have learned. Photos, illustrations and diagrams are used to help students explore and understand, and the language is clear and easy for primary children to understand. For the teacher, the Teacher's Guides provide step-by-step notes for each lesson, guiding students through the topic, and supporting students with their language development when needed. We are working with Cambridge International Examinations towards endorsement of Oxford International Primary Maths

Free Roll Brandt Tobler 2017-05-22

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from its celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

Rural Rides William Cobbett 2020-04-09

Rural Rides is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing Rural Rides, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions
