The birds fly south over the highest mountains in the world to winter in the valley where Kinga lives, deep in the Himalayas. The cranes have been visiting the valley since ancient times, but every year, fewer cranes return. Kinga is concerned. "What can he do?," he wonders. He and his classmates approach the monks for permission to create and perform a dance to honor the cranes and to remind the Bhutanese people of their duty to care for them. The monks caution them to first watch the cranes to see how they move and learn from them. The children watch and practice. And practice some more until the big day when they perform before the king of Bhutan. Diana Cohn is an educator and writer with an active commitment to social justice work. A Quiet Place - Douglas Wood 2014-04-15

"Sometimes a person needs a quiet place." A place that's far away from the hustle and bustle of everyday life -- a place that isn't ringing or talking or roaring or blaring or playing. But sometimes that place isn't easy to find. You could look under a bush in your own backyard, where the world seems far away...and you could be a pirate on a desert island. Or you could sit on an old stump in the woods amidst the glittering sunlight and mossy shadows and be a timber wolf. You could look by the sea or in the desert or in a cool dark cave, but if none of these places are right, you could come home and discover another quiet place. Perhaps the very best quiet place of all -- the one that's inside of you. In poetic

and gently philosophical prose, acclaimed author Douglas Wood explores what it's like to find that special place where we all can think our own thoughts and feel our own feelings. Dan Andreasen brings exquisite imagination and thoughtful wonder to words that will inspire readers of all ages to seek out their very own quiet place.

Empowering Yourself - Harvey J. Coleman 2010

"Work hard and you'll get ahead " We've heard that all our lives, but has it worked? Has your hard work often gone unnoticed or have others who have not worked as hard as you moved on, leaving you behind? If so, this book is a must read. "Empowering Yourself...The Organizational Game Revealed" tells why your career might be slowing or has hit the "glass ceiling." For the first time, the unwritten rules that define our system have been defined and written. Whether your definition of success is increased credibility in your current assignment or moving up the organizational ladder, this book will give you the knowledge to make the proper decisions to accomplish your goals. This book will, as never before, take you into the critical area of the "unwritten rules" that are so important in a successful career or life. You will, after reading this book, truly know how "the system" works and how "the game" should be played. If gaining empowerment or owning/controlling your career is an objective in your life, you must learn how the system works. This will allow your choices to be meaningful and productive. Without the information contained in this course, personal decisions will be hollow and careers will be left to the dictates of the system. After reading this book, events in your organizations will make sense; the advice from your mentor will be better understood; and even the evaluation of the evening news will take on new excitement simply because you understand the game. It is impossible to win any game if you do not know the rules. Mr. Coleman, in a simple and straight forward manner, gives us the rules we need to be successful. This book can level the playing field for any individual.
