Voyages - Cathy A. Small 2011-11-15

"Most Americans are unaware that the United States is a major terminus for the people of Tonga, an island nation in the South Pacific. Small examines Tongan migration to the United States in a transnational perspective, stressing that many of the new migrant populations seem to successfully manage dual lives, in both the old country and the new. To that end, she describes life in contemporary Tongan communities and in U.S. settings."—Library Journal "The central idea of *Voyages*—that Tonga and all Tongans exist at this moment in time in a transnational space—comes through vividly and powerfully, and the durability of this image is testimony to the success of Small's experiment in ethnographic writing."—The Contemporary Pacific "Voyages is a valuable contribution to the literature on immigration and on Asian Americans. Its clear, informal prose style also makes it an ideal book for undergraduate or graduate classes in anthropology, sociology, cultural geography, or Asian American studies."—International Migration Review "To write a book that is both educational and entertaining is to be at once scholarly, thoughtful, and witty—a major achievement. Cathy Small understands what migration has meant, and still means in everyday lives, as she empathizes with the plight of islanders uncertain over their landfall and destiny, and she captures their own stories beautifully. *Voyages* is one of the most passionate and compassionate books on the South Pacific in recent years."—Pacific "Small weaves her stories and analysis with a clarity and compelling attentiveness to logic that do not sacrifice intricacy and nuance."—Journal of Asian American Studies In *Voyages*, Cathy A. Small offers a view of the changes in migration, globalization, and ethnographic fieldwork over three decades. The second edition adds fresh descriptions and narratives in three new chapters based on two more visits to Tonga and California in 2010. The author (whose role after thirty years of fieldwork is both ethnographer and family member) reintroduces the reader to four sisters in the same family—two who migrated to the United States and two who remained in Tonga—and reveals what has unfolded in their lives in the fifteen years since the first edition was written. The second edition concludes with new reflections on how immigration and globalization have affected family, economy, tradition, political life, identity, and the practice of anthropology.

Peace Child - Don Richardson 2005-08-08

From Cannibals to Christ-Followers--A True Story In 1962, Don and Carol Richardson risked their lives to share the gospel with the Sawi people of New Guinea. *Peace Child* tells their unforgettable story of living among these headhunters and cannibals, who valued treachery through fattening victims with friendship before the slaughter. God gave Don and Carol the key to the Sawi hearts via a redemptive analogy from their own mythology. The "peace child" became the secret to unlocking a value system that had existed through generations. This analogy became a stepping-stone by which the gospel came into the Sawi culture and started both a spiritual and a social revolution from within. With an epilogue updating how the gospel has impacted the Sawi people, this missionary classic will inspire a new generation of readers who need to hear this remarkable story and the lessons it teaches us about communicating Christ in a meaningful way to those around us.

The Dobe Ju/'Hoansi - Lee 2012-02-01

This classic, bestselling study of the !Kung San, foragers of the Dobe area of the Kalahari Desert describes a people's reactions to the forces of modernization, detailing relatively recent changes to !Kung rituals, beliefs, social structure, marriage and kinship system. It documents their determination to take hold of their own destiny, despite exploitation of their habitat and relentless development to assert their political rights and revitalize their communities. Use of the name Ju/'hoansi (meaning real people) acknowledges their new sense of empowerment. Since the publication of the Third Edition in 2003, Richard Lee has made eight further trips to the Kalahari, the most recent in 2010 and 2011. The Dobe and Nyae Nyae Areas have continued to transform and the people have had to respond and adapt to the pressures of capitalist economics and bureaucratic governance of the Namibian and Botswana states. This Fourth Edition chronicles and bears witness to these evolving social conditions and their impacts on lives of the Ju/'hoansi. Theory in Social and Cultural Anthropology - R. Jon McGee 2013-08-28

Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences. Over the past 150 years, the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it. Consequently, both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar, if they have heard of them at all. Students, in particular, are likely to turn to the web to find quick background information on theorists and theories. However, most web-based information is inaccurate and/or lacks depth. Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics—the "who, what, where, how, and why," if you will. In response, SAGE Reference plans to publish the two-volume *Theory in Social and Cultural Anthropology: An Encyclopedia*. Features & Benefits: Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory, both in terms of breadth and depth of coverage. To ease navigation between and among related entries, a Reader's Guide groups entries thematically and each entry is followed by Cross-References. In the electronic version, the Reader's Guide combines with the Cross-References and a detailed Index to provide robust search-and-browse capabilities. An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present. Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion.

Humanity: An Introduction to Cultural Anthropology - James Peoples 2017-02-21

HUMANITY: AN INTRODUCTION TO CULTURAL ANTHROPOLOGY, Eleventh Edition, offers a solid framework centered on globalization and culture change. The text's engaging narrative provides new ways of looking at many of the challenges facing the world in this century, as students examine ethnic conflicts, globalization of culture and language, recent debates about gay marriage, increasing inequalities, population growth, hunger, and the survival of indigenous cultures. Throughout this highly acclaimed work, Peoples and Bailey explore the diversity of humanity and clearly demonstrate why an appreciation and tolerance of cultural differences is critical today. Decolonizing Anthropology Faye Venetia Harrison 1997

Decolonizing Anthropology is part of a broader effort that aims to advance the critical reconstruction of the discipline devoted to understanding humankind in all its diversity and commonality. The utility and power of a decolonized anthropology must continue to be tested and developed. May the results of ethnographic probes—the data, the social and cultural analysis, the theorizing, and the strategies for knowledge application—help scholars envision clearer paths to increased understanding, a heightened sense of intercultural and international solidarity, and last, but certainly not least, world transformation.

Parenting and Child Development: Across Ethnicity and Culture Abdur Khaleque 2021-03-31

This research-based book covers the core components of modern parenting and child development across multi-ethnic and cross-cultural contexts in Asia, Africa, Europe, and North and South America, with a focus on the United States. *Parenting and Child Development: Across Ethnicity and Culture* is based on a cohesive framework that links physical, psychological, social, cognitive, and emotional aspects of children's lives to their experiences of parental behavior. This book covers the fundamentals of parent-child relationships, including the theoretical perspective of parenting, positive and negative parenting behaviors, and changing patterns of parenting from infancy through adolescence. Explored are parent-child relationships and their implications for children's health, well-being, and quality of life in different family forms, including parenting in drug-addicted families, homeless families, cohabiting families, single-parent families, and LGBT families around the world. Using an array of theories with relevant empirical findings, the practical implications for child development both within the United States and across the globe are highlighted. Also included is specific information about tools and techniques for measuring intimate relationships and intervention strategies for relationship problems. Integrates modern, evidence-based research on parenting and child development Synthesizes interdisciplinary modes of studying parenting and child development Contextualizes research using global perspectives across cultures, ethnicities, and a diverse array of family patterns Capture both fundamentals and nuances of parenting and child development in concise chapters

Leadership in Science and Technology: A Reference Handbook - William Sims Bainbridge 2011-10-20

This 2-volume set within the SAGE Reference Series on Leadership tackles issues relevant to leadership in the realm of science and technology. To encompass the key topics in this arena, this handbook features 100 topics arranged under eight headings. Volume 1 concentrates on general principles of science and technology leadership and includes sections on social-scientific perspectives on S&T leadership; key scientific concepts about leading and innovating in S&T; characteristics of S&T leaders and their environments; and strategies, tactics, and tools of S&T leadership. Volume 2 provides case studies of leadership in S&T, with sections considering leadership in informal communities of scientists and engineers; leadership in government projects and research initiatives; leadership in industry research, development, and innovation; and finally, leadership in education and university-based research. By focusing on key topics within 100 brief chapters, this unprecedented reference resource offers students more detailed information and depth of discussion than typically found in an encyclopedia entry but not as much jargon, detail or density as in a journal article or a research handbook chapter. Entries are written in language and style that is broadly accessible, and each is followed by cross-references and a brief bibliography and further readings. A detailed index and an online version of the work enhances accessibility for today's student audience.

Anthropology - Carol R. Ember 2006-04

[In this book, the authors] are interested not only in what humans are and were like; [but they are] also interested in why they got to be that way, in all their variety. When there are alternative explanations, [the authors] try to communicate the necessity to evaluate them logically as well as on the basis of the available evidence. Throughout the book, [they] try to communicate that no idea, including ideas put forward in textbooks, should be accepted even tentatively without supporting tests that could have gone the other way. -Pref.

ESSENTIALS OF CULTURAL ANTHROPOLOGY - A. R. N. SRIVASTAVA 2012-09-19

This well-organized text continues to present the social-cultural anthropological concepts and theories which have influenced the mankind in the past, particularly in the twentieth century—between the years 1965 and 2000. The new edition is incorporated with two new sections—one defining the major concepts of sociology—defining society, community, association and so on, and the other an Appendix on Tribal Movement in India. The book further provides an anthropological analysis of cultural institutions relating to society, economy, polity, folklore and art. The description of the relation between language and culture and a separate chapter on Cultural Change, make this text unique. Examples are taken from all across the world to describe socio-economic, political, and religious institutions, and give a panoramic view of the diverse cultures. This book is intended to serve as a text for undergraduate students of Anthropology and postgraduate students of Anthropology and Sociology. In addition, it would also be beneficial for the students preparing for various competitive examinations. KEY FEATURES • Provides theoretical orientations in cultural anthropology. • Contains annotated references at the end of each chapter. • Gives an insight into the contributions of well-known anthropologists. • Illustrates concepts through diagrams and charts, thus enhancing the value of the text.

Fieldnotes - Roger Sanjek 2019-06-30

Thirteen distinguished anthropologists describe how they create and use the unique forms of writing they produce in the field. They also discuss the fieldnotes of seminal figures—Frank Cushing, Franz Boas, W. H. R. Rivers, Bronislaw Malinowski, and Margaret Mead—and analyze field writings in relation to other types of texts, especially ethnographies. Unique in conception, this volume contributes importantly to current debates on writing, texts, and reflexivity in anthropology.

The Rise of Anthropological Theory - Marvin Harris 2001

The best known, most often cited history of anthropological theory is finally available in paperback! First published in 1968, Harris's book has been cited in over 1,000 works and is one of the key documents explaining cultural materialism, the theory associated with Harris's work. This updated edition included the complete 1968 text plus a new introduction by Maxine Margolis, which discusses the impact of the book and highlights some of the major trends in anthropological theory since its original publication. RAT, as it is affectionately known to three decades of graduate students, comprehensively traces the history of anthropology and anthropological theory, culminating in a strong argument for the use of a scientific, behaviorally-based, etic approach to the understanding of human culture known as cultural materialism. Despite its popularity and influence on anthropological thinking, RAT has never been available in paperback until now. It is an essential volume for the library of all anthropologists, their graduate students, and other theorists in the social sciences.

The Craft of Research, Fourth Edition Wayne C. Booth 2016-10-07

With more than three-quarters of a million copies sold since its first publication, The Craft of Research has helped generations of researchers at every level—from first-year undergraduates to advanced graduate students to research reporters in business and government—learn how to conduct effective and meaningful research. Conceived by seasoned researchers and educators Wayne C. Booth, Gregory G. Colomb, and

Joseph M. Williams, this fundamental work explains how to find and evaluate sources, anticipate and respond to reader reservations, and integrate these pieces into an argument that stands up to reader critique. The fourth edition has been thoroughly but respectfully revised by Joseph Bizup and William T. FitzGerald. It retains the original five-part structure, as well as the sound advice of earlier editions, but reflects the way research and writing are taught and practiced today. Its chapters on finding and engaging sources now incorporate recent developments in library and Internet research, emphasizing new techniques made possible by online databases and search engines. Bizup and FitzGerald provide fresh examples and standardized terminology to clarify concepts like argument, warrant, and problem. Following the same guiding principle as earlier editions—that the skills of doing and reporting research are not just for elite students but for everyone—this new edition retains the accessible voice and direct approach that have made *The Craft of Research* a leader in the field of research reference. With updated examples and information on evaluation and using contemporary sources, this beloved classic is ready for the next generation of researchers.

Handbook of Methods in Cultural Anthropology - H. Russell Bernard 2014-07-08

The *Handbook of Methods in Cultural Anthropology*, now in its second edition, maintains a strong benchmark for understanding the scope of contemporary anthropological field methods. Avoiding divisive debates over science and humanism, the contributors draw upon both traditions to explore fieldwork in practice. The second edition also reflects major developments of the past decade, including: the rising prominence of mixed methods, the emergence of new technologies, and evolving views on ethnographic writing. Spanning the chain of research, from designing a project through methods of data collection and interpretive analysis, the *Handbook* features new chapters on ethnography of online communities, social survey research, and network and geospatial analysis. Considered discussion of ethics, epistemology, and the presentation of research results to diverse audiences round out the volume. The result is an essential guide for all scholars, professionals, and advanced students who employ fieldwork.

Women and the Military: Global Lives in Focus - Ruth Margolies Beitler 2021-04-30

This addition to the *Women and Society around the World* series explores the roles, challenges, and accomplishments of women in the military in countries across the globe. Around the world, millions of men serve in their countries' militaries, be it on land, on the seas, or in the air. But while many militaries have opened all positions to women, even those on the front lines, others remain closed. Countries have cited a number of reasons for their policies, changing views of women and the military, conscription, economic, and demographic trends. Written by a professor of comparative politics at the United States Military Academy at West Point and an active duty army major, this book seeks to provide an understanding of women's roles in militaries around the world. The book is organized by region, exploring societal and cultural views of masculinity and war, as well as factors influencing changing views of women and the military, including conscription, economic, and demographic trends. Topics also include sexual harassment, recruitment, and views on women's physicality and strength. High school students, undergraduates, and general readers will find this cross-cultural study a fascinating and important resource. Provides readers with an overview of women's role in militaries across the globe Explores the integration of women into the combat arms in several countries Provides historical background on the topic of women and the military in order to help readers better understand circumstances today Offers interesting and insightful information in sidebars placed throughout the text to make the reader's experience more enriching Provides readers with at-a-glance information of the history of women and the military around the world in a chronology Illustrates and supports the text in photographs

The International Politics of Regions - Louis J. Cantori 1970

Dancing Skeletons Katherine A. Dettwyler 2013-09-26

One of the most widely used ethnographies published in the last twenty years, this Margaret Mead Award winner has been used as required reading at more than 600 colleges and universities. This personal account by a biocultural anthropologist illuminates not-soon-forgotten messages involving the sobering aspects of fieldwork among malnourished children in West Africa. With nutritional anthropology at its core, *Dancing Skeletons* presents informal, engaging, and oftentimes dramatic stories that relate the author's experiences conducting research on infant feeding and health in Mali. Through fascinating vignettes and honest, vivid descriptions, Dettwyler explores such diverse topics as ethnocentrism, culture shock, population control, breastfeeding, child care, the meaning of disability and child death in different cultures, female circumcision, women's roles in patrilineal societies, the dangers of fieldwork, and facing emotionally draining realities. Readers will laugh and cry as they meet the author's friends and informants, follow her through a series of encounters with both peri-urban and rural Bambara culture, and struggle with her as she attempts to reconcile her very different roles as objective ethnographer, subjective friend, and mother in the field. The 20th Anniversary Edition includes a 13-page "Q&A with the Author" in which Dettwyler responds to typical questions she has received individually from students who have been assigned *Dancing Skeletons* as well as audience questions at lectures on various campuses. The new 23-page "Update on Mali, 2013" chapter is a factual update about economic and health conditions in Mali as well as a brief summary of the recent political unrest.

Volume 1 concentrates on general principles of science and technology leadership and includes sections on social-scientific perspectives on S&T leadership; key scientific concepts about leading and innovating in S&T; characteristics of S&T leaders and their environments; and strategies, tactics, and tools of S&T leadership. Volume 2 provides case studies of leadership in S&T, with sections considering leadership in informal communities of scientists and engineers; leadership in government projects and research initiatives; leadership in industry research, development, and innovation; and finally, leadership in education and university-based research. By focusing on key topics within 100 brief chapters, this unprecedented reference resource offers students more detailed information and depth of discussion than typically found in an encyclopedia entry but not as much jargon, detail or density as in a journal article or a research handbook chapter. Entries are written in language and style that is broadly accessible, and each is followed by cross-references and a brief bibliography and further readings. A detailed index and an online version of the work enhances accessibility for today's student audience"--Provided by publisher.

Encyclopedia of Medical Anthropology - Carol R. Ember 2003-12-31

Medical practitioners and the ordinary citizen are becoming more aware that we need to understand

cultural variation in medical belief and practice. The more we know how health and disease are managed in different cultures, the more we can recognize what is "culture bound" in our own medical belief and practice. The Encyclopedia of Medical Anthropology is unique because it is the first reference work to describe the cultural practices relevant to health in the world's cultures and to provide an overview of important topics in medical anthropology. No other single reference work comes close to matching the depth and breadth of information on the varying cultural background of health and illness around the world. More than 100 experts - anthropologists and other social scientists - have contributed their firsthand experience of medical cultures from around the world.

Cross-Cultural Research Methods Carol R. Ember 2009-07-16

Without ethnography, cross-cultural comparison would not be possible. But without cross-cultural comparison, we would know nothing of what may be universal or variable across human cultures, or why variation exists. Cross-Cultural Research Methods is an introductory teaching tool that shows students and potential researchers how to describe, compare, and analyze patterns that occur in different cultures, that is, how to form and test anthropological, sociological, psychological, medical, or political hypotheses about cultural variation.

Politeness Penelope Brown 1987-02-27

This book studies the principles for constructing polite speeches, based on the detailed study of three unrelated languages and cultures.

The Art of Being Human Michael Wesch 2018-08-07

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

A Manual for Writers of Research Papers, Theses, and Dissertations, Ninth Edition - Kate L. Turabian 2018-04-27

When Kate L. Turabian first put her famous guidelines to paper, she could hardly have imagined the world

in which today's students would be conducting research. Yet while the ways in which we research and compose papers may have changed, the fundamentals remain the same: writers need to have a strong research question, construct an evidence-based argument, cite their sources, and structure their work in a logical way. *A Manual for Writers of Research Papers, Theses, and Dissertations*—also known as “Turabian”—remains one of the most popular books for writers because of its timeless focus on achieving these goals. This new edition filters decades of expertise into modern standards. While previous editions incorporated digital forms of research and writing, this edition goes even further to build information literacy, recognizing that most students will be doing their work largely or entirely online and on screens. Chapters include updated advice on finding, evaluating, and citing a wide range of digital sources and also recognize the evolving use of software for citation management, graphics, and paper format and

submission. The ninth edition is fully aligned with the recently released *Chicago Manual of Style*, 17th edition, as well as with the latest edition of *The Craft of Research*. Teachers and users of the previous editions will recognize the familiar three-part structure. Part 1 covers every step of the research and writing process, including drafting and revising. Part 2 offers a comprehensive guide to Chicago's two methods of source citation: notes-bibliography and author-date. Part 3 gets into matters of editorial style and the correct way to present quotations and visual material. *A Manual for Writers* also covers an issue familiar to writers of all levels: how to conquer the fear of tackling a major writing project. Through eight decades and millions of copies, *A Manual for Writers* has helped generations shape their ideas into compelling research papers. This new edition will continue to be the gold standard for college and graduate students in virtually all academic disciplines.
