The American College of Clinical Pharmacology® invites you to Submit an Abstract for the 2022 ACCP Annual Meeting, “Transforming Global Health through Clinical Pharmacology”. The meeting will be held in Norfolk, Virginia, March 15-18, 2022. The theme of the meeting is “Enduring Values, Transformative Science, and Next-Generation Solutions.”

Clinical pharmacology encompasses all aspects of the relationship between drugs and humans. It is the only medical specialty in the NHS focusing on the safe, effective, and appropriate use of medicines. Clinical pharmacology formulation and development reduces the time, cost, and risk associated with bringing new medicines to patients.

Clinical Pharmacology in Diuretic Use

Stage IV: Understanding the clinical pharmacology of假期 drugs to optimize safety and efficacy

The decade since the development of novel angiotensin-converting enzyme (ACE) inhibitors and angiotensin receptor blockers (ARBs) has seen the introduction of a large number of new and follow-on drugs.

The Journal of Clinical Pharmacology (ISSN: 0091-6715) is the official journal of the American College of Clinical Pharmacology (ACCP) and is the leading journal for the dissemination of original research, critical reviews, and educational articles in the area of clinical pharmacology and therapeutics.

Clinical Pharmacology: applied science of pharmacology, pharmacokinetics, clinical pharmacology, and clinical pharmacology.
