Lemon-Aid New Cars and Trucks 2012 - Phil Edmonston 2011-01-01

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

Three to Tango and Other Tales - Branka Ćubrić

When the mysterious Tatee walks into the renowned Manhattan Tango Studio all hell breaks loose, not a single person stays unaltered: old friendships are challenged and put to the test; seemingly confident women are alarmingly threatened by the novel newcomer's presence; cool sleek men lose their steps, stuttering incomprehensible disobedient words. Unprepared for surreal and outlandish relationships she

The other stories explore the profoundness of human psyche where joy, suffering, humour and even madness can all be found. Encounter stories about cult escapees, an incompetent lawyer, a liberated husband, a case of mistaken identity and the serendipitous nature of synchronicity.

Lemon-Aid New Cars and Trucks 2011 - Phil Edmonston 2010-11-11

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up." *Mercedes-Benz Technical Companion* Bentley Publishers 2005

Criminal Procedure - Joel Samaha 2016-12-05

This straightforward introduction to criminal procedure combines case excerpts with clear, detailed legal discussion and analysis to give students a solid understanding of the field. The book's longtime success can be attributed to the author's ability to help readers grasp the complexities of law by clearly presenting all sides of an issue. [Capital Project Management, Volume I](#) Robert N. McGrath 2019-11-21

As an extension of Volumes I and II of this series, this book contains a detailed elaboration of the Tesla story, in a way that also serves to examine the interaction of technology and economic forces that determine the structural profitability of any industry, especially capital-intensive industries. The economics are the "five forces" introduced to the management lexicon by strategic management scholars. Here there

is strong emphasis on the interplay among product technology, production and supply chains, and "Wall Street." The author is a retired business professor; his research interest has been the management of technology and innovation. For this book, he double-checked none of the 1,250 media items collected, accepting their overall veracity at face value. This approach advocates no one person, no one company, no one technology, and no portion of the global automobile industry. Analysis and practical application came foremost.
