Official Scrabble Players Dictionary - Merriam-Webster, Inc. Staff 2009

You'll want to have this invaluable resource at your side every time you set up the board to play.

Adulthood, Morality, and the Fully Human - John J. Shea 2018-05-07

In *Adulthood, Morality, and the Fully Human*, John Shea examines what it means for someone to achieve full moral development or to become what he calls "fully human." Shea highlights integrity, mutuality, care, and justice as core components of this process and depicts the effects of personal growth on education, psychotherapy, and spirituality.

Word by Word - Kory Stamper 2017-03-14

"We think of English as a fortress to be defended, but a better analogy is to think of English as a child. We love and nurture it into being, and once it gains gross motor skills, it starts going exactly where we don't want it to go: it heads right for the goddamned electrical sockets." With wit and irreverence, lexicographer Kory Stamper cracks open the obsessive world of dictionary writing, from the agonizing decisions about what to define and how to do it to the knotty questions of ever-changing word usage. Filled with fun facts—for example, the first documented usage of "OMG" was in a letter to Winston Churchill—and Stamper's own stories from the linguistic front lines (including how she became America's foremost "irregardless" apologist, despite loathing the word), *Word by Word* is an endlessly entertaining look at the wonderful complexities and eccentricities of the English language.

Merriam Webster's Vocabulary Builder Mary W. Cornog 1998

The ideal book for people who want to increase their word power. Thorough coverage of 1,200 words and 240 roots while introducing 2,300 words. The Vocabulary Builder is organized by Greek and Latin roots for effective study with nearly 250 new words and roots. Includes quizzes after each root discussion to test progress. A great study aid for students preparing to take standardized tests.

Garner's Modern English Usage - Bryan Garner

2016-03-11

With more than a thousand new entries and more than 2,300 word-frequency ratios, the magisterial fourth edition of this book—now renamed *Garner's Modern English Usage* (GMEU)—reflects usage lexicography at its finest. Garner explains the nuances of grammar and vocabulary with thoroughness, finesse, and wit. He discourages whatever is slovenly, pretentious, or pedantic. GMEU is the liveliest and most compulsively readable reference work for writers of our time. It delights while providing instruction on skillful, persuasive, and vivid writing. Garner liberates English from two extremes: both from the hidebound "purists" who mistakenly believe that split infinitives and sentence-ending prepositions are malfeasances and from the linguistic relativists who believe that whatever people say or write must necessarily be accepted. The judgments here are backed up not just by a lifetime of study but also by an empirical grounding in the largest linguistic corpus ever available. In this fourth edition, Garner has made extensive use of corpus linguistics to include ratios of standard terms as compared against variants in modern print sources. No other resource provides as comprehensive, reliable, and empirical a guide to current English usage. For all concerned with writing and editing, GMEU will prove invaluable as a desk reference. Garner illustrates with actual examples, cited with chapter and verse, all the linguistic blunders that modern writers and speakers are prone to, whether in word choice, syntax, phrasing, punctuation, or pronunciation. No matter how knowledgeable you may already be, you're sure to learn from every single page of this book.

Reference and Information Services Kay Ann Cassell 2013

Search skills of today bear little resemblance to searches through print publications. Reference service has become much more complex than in the past, and is in a constant state of flux. Learning the skill sets of a worthy reference librarian can be challenging, unending, rewarding, and—yes, fun.

Developed in conjunction with the National Association for the Visually Handicapped, offers forty thousand entries with definitions, pronunciation guides, and usage labels to clarify word function.

Merriam-Webster's Everyday Language Reference Set - Merriam-Webster 2016-01

The Dictionary Wars - Peter Martin 2019-05-28

A compelling history of the national conflicts that resulted from efforts to produce the first definitive American dictionary of English. In *The Dictionary Wars*, Peter Martin recounts the patriotic fervor in the early American republic to produce a definitive national dictionary that would rival Samuel Johnson's 1755 *Dictionary of the English Language*. But what began as a cultural war of independence from Britain devolved into a battle among lexicographers, authors, scholars, and publishers, all vying for dictionary supremacy and shattering forever the dream of a unified American language. The overwhelming questions in the dictionary wars involved which and whose English was truly American and whether a dictionary of English should attempt to be American at all, independent from Britain. Martin tells the human story of the intense rivalry between America's first lexicographers, Noah Webster and Joseph Emerson Worcester, who fought over who could best represent the soul and identity of American culture. Webster believed an American dictionary, like the American language, ought to be informed by the nation's republican principles, but Worcester thought that such language reforms were reckless and went too far. Their conflict continued beyond Webster's death, when the ambitious Merriam brothers acquired publishing rights to Webster's *American Dictionary* and launched their own language wars. From the beginning of the

nineteenth century to the end of the Civil War, the dictionary wars also engaged America's colleges, libraries, newspapers, religious groups, and state legislatures at a pivotal historical moment that coincided with rising literacy and the print revolution. Delving into the personal stories and national debates that arose from the conflicts surrounding America's first dictionaries, *The Dictionary Wars* examines the linguistic struggles that underpinned the founding and growth of a nation.

Garner's Modern English Usage - Bryan A. Garner 2022-11-17

The most original and authoritative voice of today's English lexicography presents a fully revised new edition of his beloved usage dictionary. When Bryan Garner published the first edition of *A Dictionary of Modern American Usage* in 1999, the book quickly became one of the most influential style guides ever written for the English language. After four previous editions and over twenty years, our language has evolved in many ways, and the powerful tool of big data has revolutionized lexicography. This extensively revised new edition fully captures these changes, featuring a thousand new entries and over two hundred replacement entries, thoroughly updated usage data and ratios on word frequency based on the Google Ngram Viewer, a more balanced coverage of World Englishes, not just American and British, and the inclusion of gender-neutral language. However, one thing has not changed: in no sense is this a regular dictionary but a masterpiece of lexicography written with wit and personality by one of the preeminent authorities on the English language. To put it in David Foster Wallace's words, Garner's discussion of rhetoric and style still borders on genius. From the (lost) battle between self-deprecating and self-depreciating to the misuse of it's for its, from the variant spelling patty-cake taking over pat-a-cake in American English to the singular uses of they, Garner explains the nuances of grammar and vocabulary and the linguistic blunders to which modern writers and speakers are prone, whether in word choice, syntax, phrasing, punctuation, or pronunciation. His empirical approach liberates English from two extremes: from the purists who maintain that split infinitives and sentence-ending prepositions are malfeasances and from

the linguistic relativists who believe that whatever people say or write must necessarily be accepted. The purpose of Garner's dictionary is to help writers, editors, and speakers use the language effectively. And it does so in a playful and persuasive way that will help you sound grammatical but relaxed, refined but natural, correct but unpedantic.

Webster's Third New International Dictionary of the English Language Unabridged - 1968

Basic Finance: An Introduction to Financial Institutions, Investments, and Management
Herbert B. Mayo 2015-01-12

Combining current coverage with a student-friendly modular format, *BASIC FINANCE: AN INTRODUCTION TO FINANCIAL INSTITUTIONS, INVESTMENTS & MANAGEMENT*, 11E introduces the three primary aspects of finance and examines how they are interrelated to give students a firm foundation in all of finance--not just corporate finance. Each chapter offers a concise, self-contained treatment of one or two finance concepts, or institutions easily covered in a single class period. Students can build on what they learn through the text's Internet resources, number problems, illustrations using financial calculators, and a Microsoft Excel appendix. The time value of money is emphasized throughout. The 11th Edition includes numerous self-help problems with answers and relationships with answers, new coverage of classes of stock/preferred stock, new sections on Internet sources of information, and updated tax laws. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
Merriam Webster's Dictionary and Thesaurus
Merriam-Webster 2014-04

"Integrated language tools: Synonym lists and dictionary entries combined alphabetically; Clear and concise word guidance; Abundant usage examples; Supports Common Core State Standards"--Cover.

Character Assassination - Jason Jay Smart 2019-06-26

In the contemporary world that is ever more complex and interdependent, international relations take place within the permanent confrontation of states; we are witnessing the

more frequent use of character assassination as a common tactic of international politics. After examining how character assassination has been used in the historic context, and continues to be used in daily life (especially in politics), this book delves into how international actors have used diverse tools to defame political leaders in different countries. Of the many current examples are the numerous attacks on US President Donald Trump, those against Russian President Vladimir Putin, and other political leaders in France, Great Britain, etc. As today's news shows that the increasingly popular and effective mechanism for defamation is via electronic media resources, such as Twitter, Facebook, etc. through which hearty attacks on individuals are commonly conducted transnationally. It is worth noting that though the instruments of character assassination may differ as time passes, some tropes have existed for many generations. Today there is an entire industry built around finding humor in attacks, or the multitude of video materials that have the purpose of attacking and destroying the reputation of political leaders in the international arena. Importantly, this book thoroughly reviews common character assassination tactics and strategies which can be applied in a variety of contexts outside of international politics. By understanding the genesis of character attacks, and how the target of an attack should best react in defending themselves, the reader will be able to apply these lessons to a wide variety of settings outside of politics, expanding to the realms of business, academia, or in day-to-day life. This is the first in-depth research book ever written on character assassination with a focused study of cases in international politics.

The Oxford English Dictionary - 1989

The Encyclopaedia Britannica - 2020-12-15

Webster's New Collegiate Dictionary - 1981

The Dark Lord - Thomas Harlan 2016-01-12

Tom Harlan brings his Oath of Empire series to a shattering conclusion in The Dark Lord. In what would be the 7th Century AD in our history, the Roman Empire still stands, supported by the twin pillars of the Legions and Thaumaturges of Rome. The Emperor of the West, the Augustus Galen Atreus, came to the aid of the Emperor of the East, the Avtokrator Heraclius, in his war with the Sassanad Emperor of Persia. But despite early victories, that war has not gone well, and now Rome is hard-pressed.

Constantinople has fallen before the dark sorceries of the Lord Dahak and his legions of the living and dead. Now the new Emperor of Persia marches on Egypt, and if he takes that ancient nation, Rome will be starved and defeated. But there is a faint glimmer of hope.

The Emperor Galen's brother Maxian is a great sorcerer, perhaps the equal of Dahak, lord of the seven serpents. He is now firmly allied with his Imperial brother and Rome. And though they are caught tight in the Dark Lord's net of sorcery, Queen Zoe of Palmyra and Lord Mohammed have not relinquished their souls to evil.

Powerful, complex, engrossing --Thomas Harlan's Oath of Empire series has taken fantasy readers by storm. The first three volumes, *The Shadow of Ararat*, *The Gate of Fire*, and *The Storm of Heaven* have been universally praised. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

[The American Heritage Dictionary](#) - Houghton Mifflin Company 2001-01-01
