The Masnavi, Book One - Jalal al-Din Rumi 2004-11-11
'The pen would smoothly write the things it knew But when it came to love it split in two, A donkey stuck in mud is logic's fate - Love's nature only love can demonstrate.' Rumi's Masnavi is widely recognized as the greatest Sufi poem ever written, and has been called 'the Koran in Persian'. The

thirteenth-century Muslim mystic Rumi composed his work for the benefit of his disciples in the Sufi order named after him, better known as the whirling dervishes. In order to convey his message of divine love and unity he threaded together entertaining stories and penetrating homilies. Drawing from folk tales as well as sacred history,

Rumi's poem is often funny as well as spiritually profound. Jawid Mojaddedi's sparkling new verse translation of Book One is consistent with the aims of the original work in presenting Rumi's most mature mystical teachings in simple and attractive rhyming couplets. Angaaray - Snehal Shingavi
2018-06-05

First published in 1932, this slim volume of short stories created a firestorm of public outrage for its bold attack on the hypocrisy of conservative Islam and British colonialism. Inspired by British modernists

like Woolf and Joyce as well as the Indian independence movement, the four young trailblazers who penned this collection were eager to revolutionize Urdu literature. Instead, they invited the wrath of the establishment: the book was burned in protest and then banned by the British authorities. Nevertheless, Angaaray spawned a new generation of Urdu writers and gave birth to the Progressive Writers' Association, whose members included, among others, stalwarts like Chughtai, Manto, Premchand and Faiz. This edition also provides a compelling account of the furore surrounding this explosive collection.

Syncretic Islam - Anil

Maheshwari 2021-04-18

Syncretic Islam is a fascinating and brilliant study of the religious thought and career of one of the doyens of Muslim traditionalism in South Asia, Imam Ahmad Raza Khan Bareilvi. the active veneration of the Prophet as the most exalted of all beings. This work overviews and analyses the multiple facets constituting Ahmad Raza Khan's intellectual life and, in extension, the Barelvi school of thought in an eminently accessible manner. It is the story of a remarkable revivalist, born in the North Indian town of Bareilly during British India, who grew up to be hailed by his followers as the mujaddid, or reviver, of Islam in nineteenth-century India. A Pathan by descent, Hanafi by religious mores, Qadiri by disposition and Barelvi by nativity, Syncretic Islam captures the astounding contribution of Ahmad Raza Khan and attempts to explain his spiritual influence that still binds millions of people in the Indian subcontinent.

a Pakistani writer's discovery of Delhi Why, asks Raza Rumi, does the capital of another country feel like home? How is it that a man from Pakistan can cross the border into 'hostile' territory and yet not feel 'foreign'? Is it the geography, the architecture, the food? Or is it the streets, the festivals and the colours of the subcontinent, so familiar and yes, beloved... As he takes in the sights, from the Sufi shrines in the south to the markets of Old Delhi, from Lutyens' stately mansions to Ghalib's crumbling abode, Raza uncovers the many layers of the city. He connects with the richness of the Urdu language, observes the syncretic evolution of mystical Islam in India and its deep connections with Hindustani classical music - so much a part of his own selfhood. And every so often, he returns to the refuge of Hazrat Nizamuddin Auliya, the twelfth-century pir, whose dargah still reverberates with music and prayer every evening. His wanderings through Delhi lead Raza back

in time to recollections of a long-forgotten Hindu ancestry and to comparisons with his own city of Lahore - in many ways a mirror image of Delhi. They also lead to reflections on the nature of the modern city, the inherent conflict between the native and the immigrant and, inevitably, to an inquiry into his own identity as a South Asian Muslim. Rich with history and anecdote, and conversations with Dilliwalas known and unknown, Delhi By Heart offers an unusual perspective and unexpected insights into the political and cultural capital of India.

In this meticulously researched book, Arun Shourie looks at the social, religious and political contexts of fatwas down the ages. With a mountain of fatwas as his text, he shows us the Shariah in action; he unravels the history of fatwas, and the implications that a faithful, dogmatic adherence to these Islamic decrees holds for the 'believer'. And hence for the non-believers. First published in 1995, this revised, up-to-date and expanded edition provides both Muslims and non-Muslims alike an even more clear-eyed look at the controversial world of fatwas.

and models underlying the discipline of aerodynamics. A particular focus is the technique of velocity field representation and modeling via source and vorticity fields and via their sheet, filament, or point-singularity idealizations. These models provide an intuitive feel for aerodynamic flow-field behavior and are the basis of aerodynamic force analysis, drag decomposition, flow interference estimation, and other important applications. The models are applied to both low speed and high speed flows. Viscous flows are also covered, with a focus on understanding boundary layer behavior and its influence on aerodynamic flows. The book covers some topics in depth while offering introductions and summaries of others. Computational methods are indispensable for the practicing aerodynamicist, and the book covers several computational methods in detail, with a focus on vortex lattice and panel methods. The goal is to improve understanding of the physical

models that underlie such methods. The book also covers the aerodynamic models that describe the forces and moments on maneuvering aircraft, and provides a good introduction to the concepts and methods used in flight dynamics. It also offers an introduction to unsteady flows and to the subject of wind tunnel measurements. The book is based on the MIT graduate-level course "Flight Vehicle Aerodynamics" and has been developed for use not only in conventional classrooms but also in a massive open online course (or MOOC) offered on the pioneering MOOC platform edX. It will also serve as a valuable reference for professionals in the field. The text assumes that the reader is well versed in basic physics and vector calculus, has had some exposure to basic fluid dynamics and aerodynamics, and is somewhat familiar with aerodynamics and aeronautics terminology.

The Secrets of the Self

Muhammad Iqbal 2010-01-01

The Secrets of the Self is a book-length, philosophical poem rooted in metaphysical thought and ideology, as well as Islamic theology. Originally published in 1915, the poem speaks of the "Self" in relation to the universe, how it is the inner power and soul of each individual human. It instructs on how to improve the Self through Love and willpower, which can then help one control the forces within the universe. The poem includes stories that illustrate its points and promotes the spread of Islamic ideals. MUHAMMAD IQBAL (1877-1938) was a poet, prophet, and politician in British India. Born in Sialkot, Punjab, Iqbal converted to Islam with his family as a child. He studied literature and law at Cambridge, Munich, and Heidelberg before starting his own law practice and concentrating on his scholarly writing, which he authored primarily in Persian. Many of Iqbal's works promote Islamic revival, especially in South

Asia, and he was a well-known leader of the All India Muslim League. Today, he is recognized as the official poet of Pakistan, and his birthday is celebrated as a national holiday.

Ocean of Love, or Sea of Troubles? - Geoffrey Harris
2016-12-22

The title of Dr. Harris' book suggests that life is like a two-sided coin: it can be an Ocean of Love but can also be a Sea of Troubles. The subtitle clarifies this paradox: first, there are many signs of God's reality and activity in the world, and the first section of the book examines ways in which people are aware of God as both a creative and immanent presence in life. The "signs" of God are not philosophical "proofs" but empirical realities accessible to all people. In the second section, the biblical responses to suffering in the world are explored--through both Old and New Testaments. In the third section the writings of two modern apologists, C. S. Lewis and Philip Yancey, are assessed,

and then finally there is a chapter of interviews with people who have known suffering in their lives.

Sufis and Salafis in the Contemporary Age - Lloyd Ridgeon 2015-04-23

Sufis and Salafis in the Contemporary Age explores the dynamics at play between what are usually understood as two very different forms of Islam, namely Sufism and Salafism. Sufism is commonly understood as the peaceful and mystical dimension of Islam whereas Salafism is perceived as strictly pietistic and moralist, and for some it conjures up images of violent manifestations of Islam. Of course these generalisations require more nuanced investigation, and this book provides a number of case studies from around the Islamic world to unpack the intricate relationship between

the two. The diversity of the case studies that focus on Islamic groups in India, Iraq, Egypt, Morocco, Turkey and South East Europe reflect the multiplicity of relationships that exist between the Salafis and Sufis. The specific case studies are framed by an introduction that provides essential historical background and definitions of the terms, and also by general studies of the Sufi-Salafi relationship which enable the reader to focus on the large picture. This will be the first book to investigate the relationship between Sufism and Salafism in such a wide fashion, and includes chapters on "traditional" Sufis, as well as from those who consider that Sufism and Salafism are not necessarily contradictory.

From Hindi to Urdu - Tariq Rahman 2018-02-10

This book is the first of its kind on the socio-political history of Urdu. It analyses the historiography of the language-narratives about its names, linguistic ancestry, place of

birth-and relates it to the politics of identity-construction among the Hindus and Muslims of India during the last two centuries. More importantly, a historical account of the use of Urdu in social domains such as employment, education, printing and publishing, radio, films and television etc. has been provided for the first time. These accounts are related to the expression of Hindu and Muslim identity-politics during the last two centuries. Evolution of Urdu from the language of the laity, both Hindus and Muslims, of the Indian subcontinent during the period between 15th-18th centuries to its standardization into two languages:

Persianized Urdu and Sanskritized Hindi are highlighted here. The writer looks at narratives of the names, theories of genealogy and places of origin of the language in relation to the political imperatives of identity-politics of Hindus and Muslims during the nineteenth and twentieth centuries. In a nutshell, historiography is

**Iblees KI Majlis-E-Shoora:
The Devil's Advisory Council**

- Muhammad Iqbal 2020-10-02
Iblees ki Majlis-e-Shoora is a conversation between Iblees (the devil) and the five members of his advisory council. It is one of the final works of Allama Iqbal. The work consists of 64 amazingly dramatized, well composed couplets. Here, Iblees presides over the clandestine session and leads the conversation. He boasts how successfully he has mislead Mankind throughout history by introducing ideas and doctrines such as Imperialism, Capitalism, Fascism etc., which have ultimately landed the human society in ruins. His advisers

point towards a few emerging trends such as Western democracy and Marxism that they saw as potential threats to the evil regime of Iblees. Summarily dismissing all these apprehensions of his advisers, Iblees concludes, that the revolutionary spirit of Islam is the greatest threat to his evil empire and hence the most crucial task ahead was to stop the waves of Muslim resurgence. He instructs them to keep the followers of Islam totally preoccupied with vain spiritual rituals, complex philosophical debates and narrow theological intricacies. Allama Iqbal, an advocate of universal human fraternity, envisaged the revival of the original Islamic civilization, globally. His works, exposed the limitations of the socio-political and economic concepts introduced by the West.
