Prefect Guide of Fairy Garden - Alex Paul M D  
2020-09-12

The larger the fairy garden, the more options when it comes to incorporating hills, valleys, water features and multiple settings. While a small fairy garden might be limited to a small hobbit house, a larger one could include a whole neighborhood. Small fairy gardens have at least two advantages they're cheap to put together

and portable enough to take in the house as indoor planters, if desired. Really, the best plants for a fairy garden are any that look like miniature versions of full-size plants. Bonsai are a natural and you can buy them inexpensively at big box stores rather than having to create one from scratch over the course of several years. Other options include calibrachoa, sedum, ageratum, gomphrena, Irish or Scotch moss, blue lobelia, sweet alyssum, dwarf conifers and a host of smaller sedums such as Angelina. Look for small plants that mimic the shapes of landscape plants a round shrub, an upright tree. You can even use bare twigs to represent deciduous trees that have shed their leaves. Once the fairy garden is planted, water plants deeply, ensuring excess water drains away. After that, you'll probably have to water every other day, provided your miniature garden isn't in all-day sunlight. In that case, daily watering will be necessary. Because of their small size, fairy gardens dry out quickly, so consider using a

soilless potting mix containing a slow-release fertilizer and water-holding crystals to lessen maintenance. Keep the garden where it gets afternoon shade. If you're not sure where to start, a fairy garden kit is a good option. It can be simple, inexpensive and kid-friendly, like this fairy garden house, or more extravagant, like this fairy garden village. Once you have the structures in place, you can add small plants and paths, streams, picket a fence, arbor and, of course, a whimsical fairy or two.

*A Catalog of Such Stuff as Dreams Are Made On*

- Kai-cheung Dung 2022-06-21

Dung Kai-cheung's *A Catalog of Such Stuff as Dreams Are Made On* is a playful and

imaginative glimpse into the consumerist dreamscape of late-nineties Hong Kong. First published in 1999, it comprises ninety-nine sketches of life just after the handover of the former British colony to China. Each of these stories in miniature begins from a piece of ephemera, usually consumer products or pop culture phenomena, and develops alternately comic and poignant snapshots of urban life. Dung's sketches center on once-trendy items that evoke the world at the turn of the millennium, such as Hello Kitty, Final Fantasy VIII, a Windows 98 disk, a clamshell mobile phone, Air Jordans, and cargo shorts. The protagonist of each piece, typically a young woman, is struck by an odd, even overriding obsession with an object or fad. Characters embark on brief dalliances or relationships lasting no longer than the fashions that sparked them. Dung blends vivid everyday details—Portuguese egg tarts, Japanese TV shows, the Hong Kong subway—with situations

that are often fantastical or preposterous. This catalog of vanished products illuminates how people use objects to define and even invent their own selves. A major work from one of Hong Kong's most gifted and original writers, Dung's archaeology of the end of the twentieth century speaks to perennial questions about consumerism, nostalgia, and identity.
