Incorporating LGBTQ+ Identities in K-12 Curriculum and Policy - Shindys, April 2019-12-27

Educators in the K-12 school environment work diligently to help at-risk students find success in the classroom. One particular group of at-risk students is the LGBTQ+ population. K-12 students who identify as lesbian, gay, bisexual, transgender, or queer often fear the repercussions of disclosing this information in the classroom environment. Homophobia from fellow students, faculty, and/or administrators can be in the form of bullying, lack of acknowledgement of identity, absence in curriculum, etc. There is a strong need for this group of students to be included in the landscape of curriculum design and policymaking. Incorporating LGBTQ+ Identities in K-12 Curriculum and Policy is a critical research publication that provides comprehensive research on inclusive curriculum design and education policy that specifically impacts LGBTQ+ students. Featuring an array of topics such as gender diversity, mental health services, and preservice teachers, this book is essential for teachers, counsellors, school psychologists, therapists, curriculum developers, instructional designers, principals, school boards, academicians, researchers, administrators, policymakers, and students.

Critical Multicultural Analysis of Children's Literature - Maria José Botelho 2009-05-07

"Children's literature is a contested terrain, as is multicultural education. Taken together, they pose a formidable challenge to both classroom teachers and academics.... Rather than deny the inherent conflicts and tensions in the field, in Critical Multicultural Analysis of Children's Literature: Mirrors, Windows, and

Doors, Maria José Botelho and Masha Kabakow Rudman confront, deconstruct, and reconstruct these terrains by proposing a reframing of the field.... Surely all of us - children, teachers, and academics - can benefit from this more expansive understanding of what it means to read books." Sonia Nieto, From the Foreword Critical multicultural analysis provides a philosophical shift for teaching literature, constructing curriculum, and taking up issues of diversity and social justice. It problematizes children's literature, offers a way of reading power, explores the complex web of sociopolitical relations, and deconstructs taken-for-granted assumptions about language, meaning, reading, and literature: it is literary study as sociopolitical change. Bringing a critical lens to the study of multiculturalism in children's literature, this book prepares teachers, teacher educators, and researchers of children's literature to analyze the ideological dimensions of reading and studying literature. Each chapter includes recommendations for classroom application, classroom research, and further reading. Helpful end-of-book appendixes include a list of children's book awards, lists of publishers, diagrams of the power continuum and the theoretical framework of critical multicultural analysis, and lists of selected children's literature journals and online resources.
