Sacred Space - Monty Wright 2014-04-15

Are you tired of living a "formula faith" that leaves you empty, frustrated, and discouraged? We were created to experience so much more of God than most people currently do. However, too often we settle for the A + B = C approach to faith and life-which never truly meets the deep longings of the soul. We have bought into the lie that we will become spiritual people if we simply do the right spiritual things. This has crafted a works-based religious culture that fosters discouragement, disillusionment, and apathy. Sacred Space: - helps us journey deeper than bullet-point Christianity - teaches us how to unmask the shallowness and emptiness of cultural spirituality - shows us how to live connected to God If you long to uncover the secret to cultivating "God-space" amidst the busyness of life, then prepare to experience the divine movement from information towards transformation. Discover how to free your soul, moment by moment, in the midst of a frantic, noisy world. It's time to revolutionize the way you live out your faith and begin experiencing a God-saturated life-the zoe life of God-from the inside out! It's time to create some sacred space.

The Performance Economy - W. Stahel 2010-02-24

This updated and revised edition outlines strategies and models for how to use technology and knowledge to improve performance, create jobs and increase income. It shows what skills will be required to produce, sell and manage performance over time, and how manual jobs can contribute to reduce the consumption of non-renewable resources.

Stirling Engine Design Manual - William Martini 2013-01-25

For Stirling engines to enjoy widespread application and acceptance, not only must the fundamental operation of such engines be widely understood, but the requisite analytic tools for the stimulation, design, evaluation and optimization of Stirling engine hardware must be readily available. The purpose of this design manual is to provide an introduction to Stirling cycle heat engines, to organize and identify the available Stirling engine literature, and to identify, organize, evaluate and, in so far as possible, compare non-proprietary Stirling engine design methodologies. This report was originally prepared for the National Aeronautics and Space Administration and the U. S. Department of Energy.

The Persistence of Technology - Stefan Krebs 2021-09-30

Repair, reuse and disposal are closely interlinked phenomena related to the service lives and persistence of technologies. When technical artefacts become old and worn out, decisions have to be taken: is it necessary, worthwhile or even possible to maintain and repair, reuse or dismantle them - or must they be discarded? These decisions depend on factors such as the availability of second-hand markets, repair infrastructures and dismantling or disposal facilities. In telling the stories of China's power grid, Canadian telephones, German automobiles and India's shipbreaking business, among others, the contributions in this volume highlight the persistence of technologies and show that maintenance and repair are not obsolete in modern industries and consumer societies.

The Structuring of Organizations - Henry Mintzberg 1979

How do organizations structure themselves? A synthesis of the empirical literature in the field, supported by numerous examples and illustrations, provides images that produce a theory. The author introduces five basic configurations of structure - the simple structure, the machine bureaucracy, the professional bu- reaucracy, the divisionalized form, and the adhocracy. This book reveals that structure seems to be at the root of many questions about organizations and why they function as they do.
