Film Dialogue - Jeff Jaeckle 2013-07-09
Film Dialogue is the first anthology in film studies devoted to the topic of language in cinema, bringing together leading and emerging scholars to discuss the aesthetic, narrative, and ideological dimensions of film speech that have

largely gone unappreciated and unheard. Consisting of thirteen essays divided into three sections: genre, auteur theory, and cultural representation, Film Dialogue revisits and reconfigures several of the most established topics in film studies in an effort to persuade

readers that "spectators" are more accurately described as "audiences," that the gaze has its equal in eavesdropping, and that images are best understood and appreciated through their interactions with words. Including an introduction that outlines a methodology of film dialogue study and adopting an accessible prose style throughout, *Film Dialogue* is a welcome addition to ongoing debates about the place, value, and purpose of language in cinema.

A Christmas Story - Jean Shepherd 2010-10-27

A beloved, bestselling classic of humorous and nostalgic Americana—the book that inspired the equally classic Yuletide film and the live musical on Fox. The holiday film *A Christmas Story*, first released in 1983, has become a bona fide Christmas perennial, gaining in stature and fame with each succeeding year. Its affectionate, wacky, and wryly realistic portrayal of an American family's typical Christmas joys and travails in small-town Depression-era Indiana has entered our imagination and our hearts with

a force equal to *It's a Wonderful Life* and *Miracle on 34th Street*. This edition of *A Christmas Story* gathers together in one hilarious volume the gems of autobiographical humor that Jean Shepherd drew upon to create this enduring film. Here is young Ralphie Parker's shocking discovery that his decoder ring is really a device to promote Ovaltine; his mother and father's pitched battle over the fate of a lascivious leg lamp; the unleashed and unnerving savagery of Ralphie's duel in the show with the odious bullies Scut Farkas and Grover Dill; and, most crucially, Ralphie's unstoppable campaign to get Santa—or anyone else—to give him a Red Ryder carbine action 200-shot range model air rifle. Who cares that the whole adult world is telling him, "You'll shoot your eye out, kid"? The pieces that comprise *A Christmas Story*, previously published in the larger collections *In God We Trust*, *All Others Pay Cash* and *Wanda Hickey's Night of Golden Memories*, coalesce in a magical fashion to become an

irresistible piece of Americana, quite the equal of the film in its ability to warm the heart and tickle the funny bone.

ISBN: 978-1-4197-2022-2 *In God We Trust*- Jean Shepherd 2010-10-27 The beloved, bestselling classic that became the movie, A CHRISTMAS STORY -- humorous and nostalgic Americana, reissued in a strikingly designed paperback edition. Before Garrison Keillor and Spalding Gray there was Jean Shepherd: a master monologist and writer who spun the materials of his all-American childhood into immensely resonant--and utterly hilarious--works of comic art. In God We Trust: All Others Pay Cash represents one of the peaks of his

achievement, a compound of irony, affection, and perfect detail that speaks across generations. In God We Trust, Shepherd's wildly witty reunion with his Indiana hometown, disproves the adage "You can never go back." Bending the ear of Flick, his childhood-buddy-turned-bartender, Shepherd recalls passionately his genuine Red Ryder BB gun, confesses adolescent failure in the arms of Junie Jo Prewitt, and relives a story of man against fish that not even Hemingway could rival. From pop art to the World's Fair, Shepherd's subjects speak with a universal irony and are deeply and unabashedly grounded in American Midwestern life, together rendering a wonderfully nostalgic impression of a more innocent era when life was good, fun was clean, and station wagons roamed the earth. A comic genius who bridged the gap between James Thurber and David Sedaris, Shepherd may have accomplished for Holden, Indiana, what Mark Twain did for Hannibal, Missouri.

Between a Rock and a Hard Place - Aron Ralston 2004-09-15

One of the most extraordinary survival stories ever told -- Aron Ralston's searing account of his six days trapped in one of the most remote spots in America, and how one inspired act of bravery brought him home. It started out as a simple hike in the Utah canyonlands on a warm Saturday afternoon. For Aron Ralston, a twenty-seven-year-old mountaineer and outdoorsman, a walk into the remote Blue John Canyon was a chance to get a break from a winter of solo climbing Colorado's highest and toughest peaks. He'd earned this weekend vacation, and though he met two charming women along the way, by early afternoon he finally found himself in his element: alone, with just the beauty of the natural world all around him. It was 2:41 P.M. Eight miles from his truck, in a deep and narrow

slot canyon, Aron was climbing down off a wedged boulder when the rock suddenly, and terrifyingly, came loose. Before he could get out of the way, the falling stone pinned his right hand and wrist against the canyon wall. And so began six days of hell for Aron Ralston. With scant water and little food, no jacket for the painfully cold nights, and the terrible knowledge that he'd told no one where he was headed, he found himself facing a lingering death -- trapped by an 800-pound boulder 100 feet down in the bottom of a canyon. As he eliminated his escape options one by one through the days, Aron faced the full horror of his predicament: By the time any possible search and rescue effort would begin, he'd most probably have died of dehydration, if a flash flood didn't drown him before that. What does one do in the face of almost certain death? Using the video camera from his pack, Aron began recording his grateful good-byes to his family and friends all over the country, thinking back over a life filled with

adventure, and documenting a last will and testament with the hope that someone would find it. (For their part, his family and friends had instigated a major search for Aron, the amazing details of which are also documented here for the first time.) The knowledge of their love kept Aron Ralston alive, until a divine inspiration on Thursday morning solved the riddle of the boulder. Aron then committed the most extreme act imaginable to save himself. Between a Rock and a Hard Place -- a brilliantly written, funny, honest, inspiring, and downright astonishing report from the line where death meets life -- will surely take its place in the annals of classic adventure stories.

Entertainment Science Thorsten Hennig-Thurau 2018-08-01

The entertainment industry has long been dominated by legendary screenwriter William Goldman's "Nobody-Knows-Anything" mantra, which argues that success is the result of managerial intuition and instinct. This book builds the case that combining such intuition with data analytics and rigorous scholarly knowledge provides a source of sustainable

competitive advantage - the same recipe for success that is behind the rise of firms such as Netflix and Spotify, but has also fueled Disney's recent success. Unlocking a large repertoire of scientific studies by business scholars and entertainment economists, the authors identify essential factors, mechanisms, and methods that help a new entertainment product succeed. The book thus offers a timely alternative to "Nobody-Knows" decision-making in the digital era: while coupling a good idea with smart data analytics and entertainment theory cannot guarantee a hit, it systematically and substantially increases the probability of success in the entertainment industry. Entertainment Science is poised to inspire fresh new thinking among managers, students of entertainment, and scholars alike. Thorsten Hennig-Thurau and Mark B. Houston - two of our finest scholars in the area of entertainment marketing - have produced a definitive research-based compendium that cuts across various branches of the arts to explain

the phenomena that provide consumption experiences to capture the hearts and minds of audiences. Morris B. Holbrook, W. T. Dillard Professor Emeritus of Marketing, Columbia University Entertainment Science is a must-read for everyone working in the entertainment industry today, where the impact of digital and the use of big data can't be ignored anymore. Hennig-Thurau and Houston are the scientific frontrunners of knowledge that the industry urgently needs. Michael Kölmel, media entrepreneur and Honorary Professor of Media Economics at University of Leipzig Entertainment Science's winning combination of creativity, theory, and data analytics offers managers in the creative industries and beyond a novel, compelling, and comprehensive approach to support their decision-making. This ground-breaking book marks the dawn of a new Golden Age of fruitful conversation between entertainment scholars, managers, and artists. Allègre Hadida, Associate Professor in Strategy,

Journal Creativity, Inc. is a manual for anyone
who strives for originality and the first-ever, all-
access trip into the nerve center of Pixar
Animation—into the meetings, postmortems, and
“Braintrust” sessions where some of the most

successful films in history are made. It is, at heart, a book about creativity—but it is also, as Pixar co-founder and president Ed Catmull writes, “an expression of the ideas that I believe make the best in us possible.” For nearly twenty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Monsters, Inc., Finding Nemo, The Incredibles, Up, WALL-E, and Inside Out, which have gone on to set box-office records and garner thirty Academy Awards. The joyousness of the storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, in this book, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student at the University of Utah, where many computer science pioneers got their start, and then forged a partnership

with George Lucas that led, indirectly, to his co-founding Pixar in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie’s success—and in the thirteen movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on leadership and management philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team, and they will screw it up. But give a mediocre idea to a great team, and they will either fix it or come up with something better.
- If you don’t strive to uncover what is unseen and understand its nature, you will be ill prepared to lead.
- It’s not the manager’s job to prevent risks. It’s the manager’s job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company’s communication structure should not mirror its organizational structure. Everybody should be

able to talk to anybody.
