Full - Size Ford Restoration: 1960- 1964 - Collin Kleer
2017-08-15

Ford's full-size model change from 1959 to 1960 was seen as a big departure from the swerving lines of the 1950s. Slow to start on sales, Ford's full-size production grew year after year, peaking with 648,010 units produced in 1963. It was an all-time best for the Galaxie line and its sister nameplates. Eight appearance and performance

offerings were applied to the full-size Ford line including the Fairlane, Galaxie, Ranch Wagon, Country Sedan, Country Squire, Courier, 300, and Custom, which made each car unique. With more than 2.3 million full-size Fords produced from 1960 to 1964, a restoration book for these cars has been desperately needed, and here it is! Author Colin Kleer, president of Pennsylvania's Three Rivers chapter of the Galaxie Club

puts his decades of experience restoring these cars into this single volume. Featuring step-by-step procedures on body, driveline, chassis, and interior components, Klee shows, with more than 400 photos and text, how to restore a full-size Ford to its former glory. Crucial projects such as rust repair and driveline maintenance help guarantee that your Ford will be sound and solid for years to come after the restoration. The Galaxie and its full-size stablemates continue to be a strong force at car shows and in the marketplace; they create an even deeper following for these cars. Adding a detailed restoration book to the full-size restorers arsenal will surely aid in bringing more of these Fords back to life and back on the road.

In this riveting tale we meet two couples caught in a web of conflicting passions, Diving instructor Sven Fiedler and his girlfriend, Antje, who live and work on the Spanish island of Lanzarote. When a tourist

couple—Jola, a soap opera actress, and Theo, a stalled novelist—arrive for an intensive two-week diving experience, Sven is captivated by Jola's beauty and evident wealth. Theo suspects that Sven and Jola have begun an affair, but oddly, he seems to encourage them. Antje looks on, increasingly wary of these new clients. Cycling through different points of view, we are constantly kept guessing about who knows what—and who is telling the truth. A brutal game of temptation and manipulation unfolds, pointing toward a violent end—but a quiet one, underwater, beneath the waves.

The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on

maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

The Corvey library was built during the last half of the 19th century by Victor and his wife Elise, both bibliophiles with varied interests. The collection thus contains everything from novels and short stories to belles lettres and more populist works, and includes many exceedingly rare works not available in any other collection from the period. These invaluable, sometimes previously unknown works are of particular interest to scholars and researchers.
