**The History of Ukraine** - Paul Kubicek 2008-09-30

Ukraine's struggle for a national identity plagued this former Soviet Union state long before the Cold War shook the world. Its central location between Eastern Europe and Western Asia invited many different cultures to settle the land, ultimately populating a powerful early medieval society known as Kievan Rus. However, readers will learn how Kievan Rus's Golden Age quickly crumbled with decades of Mongol invasions, Polish-Lithuanian occupation, and Russian empirical ruling. Explore how Ukraine flirted with independence in the early 20th century, only to be quickly taken over by harsh Soviet rule in 1922. Despite its independence from the USSR in 1991, devastating consequences of the socialist rule have allowed the world to witness Ukraine's ceaseless efforts to attain a stable government, struggling through the poisoning of Viktor Yushchenko, rigged elections, and the Orange Revolution. Kubicek's survey is comprehensive and concise-a perfect resource for high school students and undergrads, as well as general readers looking to further their knowledge of this up-and-coming nation.

**The Contemporary Freudian Tradition** - Ken Robinson 2020-10-20

This is the first book dedicated to the Contemporary Freudian Tradition. In its introduction, and through its selection of papers, it describes the development and rich diversity of this tradition over recent decades, showing how theory and practice are inseparable in the psychoanalytic treatment of children, adolescents and adults. The book is organized around four major concerns in the Contemporary Freudian Tradition: the nature of the Unconscious and the ways that it manifests itself; the extension of Freud's theories of development through the work of Anna Freud and later theorists; the body and psychosexuality, including the centrality of bodily experience as it is elaborated over time in the life of

the individual; and aggression. It also illustrates how within the Tradition different exponents have been influenced by psychoanalytic thinking outside it, whether from the Kleinian and Independent Groups, or from French Freudian thinking. Throughout the book there is strong emphasis on the clinical setting, in, for example, the value of the Tradition's approach to the complex interrelationship of body and mind in promoting a deeper understanding of somatic symptoms and illnesses and working with them. There are four papers on the subject of dreams within the Contemporary Freudian Tradition, illustrating the continuing importance accorded to dreams and dreaming in psychoanalytic treatment. This is the only book that describes in detail the family resemblances shared by those working psychoanalytically within the richly diverse Contemporary Freudian Tradition. It should appeal to anyone, from student onwards, who is interested in the living tradition of Freud's work as understood by one of the three major groups within British psychoanalysis.

**Halal Development: Trends, Opportunities and Challenges** - Heri Pratikto 2021-07-22

The increasing demand for halal products, including goods and services, every year, especially for food and beverages, has resulted in a growing need for products with halal guarantees. Along with the increasing trend of the global demand, it has resulted in an increase in producers of halal food and beverages in both Muslim and non-Muslim countries. In addition the demand for halal tourism is also increasing. Indonesia is one of the largest Muslim countries in the world. However, there are still many Muslim consumer actors and Muslim producer actors who do not yet have an awareness of the importance of complying with the provisions of Islamic law in consuming and producing goods and services. There are still many restaurants and hotels that serve food and drinks that are not certified halal. There are still many food, medicinal and cosmetic products that are not halal certified. But now many secular countries such as France, Canada, Australia, the United States, Britain are also halal certified with the aim of meeting the Muslim demand for halal products for food and beverage, including for halal tourism. Starting from the development of the halal industry both in the fields of food, beverages and services, an International Seminar was held, which provides a more complete understanding of halal products, current halal developments and can serve as motivation to produce halal products, providing research results from the topic of halal development. The international seminar, entitled International Conference on Halal Development, listed speakers from several countries able to provide an overview of the halal development of several countries. This book contains a selection of papers from the conference.

**Familiar Messes** - Gratiagusti Chananya Rompas 2017-12-18

And days flew by like heavy cigarette smoke floating above the dancing heads in the city's most notorious club, like speech bubbles written in a language you cannot understand, like a dragon's breath you keep chasing, like pills that move from your hand to your red lips." Gratiagusti Chananya Rompas' personal essays are troves of memories she can always turn back to. They started off as day-to-day accounts of events from her younger years and the now.
