**A History of Muslims, Christians, and Jews in the Middle East** -

Heather J. Sharkey 2017-04-03

Across centuries, the Islamic Middle East hosted large populations of Christians and Jews in addition to Muslims. Today, this diversity is mostly absent. In this book, Heather J. Sharkey examines the history that Muslims, Christians, and Jews once shared against the shifting backdrop of state policies. Focusing on the Ottoman Middle East before World War I, Sharkey offers a vivid and lively analysis of everyday social contacts, dress, music, food, bathing, and more, as they brought people together or pushed them apart. Historically, Islamic traditions of statecraft and law, which the Ottoman Empire maintained and adapted, treated Christians and Jews as protected subordinates to Muslims while prescribing limits to social mixing. Sharkey shows how, amid the pivotal

changes of the modern era, efforts to simultaneously preserve and dismantle these hierarchies heightened tensions along religious lines and set the stage for the twentieth-century Middle East.

**Shapers of Early Christianity** - Roland H. Worth, Jr. 2010-06-28  
In 100 A.D., Christianity was practiced only by a small, oppressed minority. Three hundred years later, Christianity had become one of the world's major religions. But this change did not happen easily. The imperial government of Rome, intellectual tradition and battles within the church itself influenced the transformation. Every viewpoint had its champions and opponents and whether they were "defenders of the faith" or those whom history later labeled heretics, they were part of the early evolution of Christianity. This volume discusses more than 50 figures who played a role in the transformation from primitive Christianity to early Medieval Catholicism. As it examines the lives and influence of imperial rulers such as Constantine, proponents of the intellectual tradition including Gregory of Neocaesaria and Julius Africanus, and early Bible translators such as Tatian, Origen and Jerome, the work provides a fascinating look at Christian history.

At the time of writing *Rural Rides*, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions  
*Traditions & Encounters* Jerry H. Bentley 2020

"This is History Book. It explored the grand scheme of world history as a product of real-life human beings pursuing their individual and collective interests. It also offered a global perspective on the past by focusing on both the distinctive characteristics of individual societies and the connections that have linked the fortunes of different societies. It has combined a clear chronological framework with the twin themes of traditions and encounters, which help to make the unwieldy story of world history both more manageable and more engaging. From the beginning, Traditions & Encounters offered an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times"—

**Intercultural Encounters** - Wim M. J. van Binsbergen 2003

This book includes fifteen essays that investigate aspects of interculturality. As such, it focuses on the borderline between social anthropology and intercultural philosophy. The author seeks to make a contribution to intercultural philosophy by formulating with great precision and painful honesty the lessons derived from extensive intercultural experiences as an anthropologist. The volume's culminating section presents an intercultural philosophy revolving on the tenet "Cultures do not exist." The kaleidoscopic nature of intercultural experiences is reflected in the diversity of these texts. Many belong to a field that could be described as "meta-anthropology," others are more clearly philosophical; occasionally the essays spill over into belles lettres, ancient history, and comparative cultural and religious studies. The ethnographic specifics supporting the arguments are diverse, deriving from various African situations in which the author has conducted participatory field research, in countries including Tunisia, Zambia, Botswana, and South Africa. Wim van Binsbergen is professor of Foundations of Intercultural Philosophy, Philosophical Faculty, Erasmus University, Rotterdam, and chair of the theme group on globalization, African Studies Centre, Leiden.

*The Game Master's Book of Random Encounters* Jeff Ashworth 2020-09-15

For many tabletop RPG players, the joy of an in-depth game is that anything can happen. Typical adventure modules include a map of the adventure's primary location, but every other location?whether it's a woodland clearing, a random apothecary or the depths of a temple players elect to explore?has to be improvised on the fly by the Game Master. As every GM knows, no matter how many story hooks, maps or

NPCs you painstakingly create during session prep, your best-laid plans are often foiled by your players' whims, extreme skill check successes (or critical fails) or their playful refusal to stay on task. In a game packed with infinite possibilities, what are GMs supposed to do when their players choose those for which they're not prepared? The Game Master's Book of Random Encounters provides an unbeatable solution. This massive tome is divided into location categories, each of which can stand alone as a small stop as part of a larger campaign. As an example, the "Taverns, Inns, Shops & Guild Halls" section includes maps for 19 unique spaces, as well as multiple encounter tables designed to help GMs fill in the sights, sounds, smells and proprietors of a given location, allowing for each location in the book to be augmented and populated on the fly while still ensuring memorable moments for all your players. Each map is presented at scale on grid, enabling GMs to determine exactly where all of the characters are in relation to one another and anyone (or anything) else in the space, critical information should any combat or other movement-based action occur. Perhaps more useful than its nearly 100 maps, the book's one-shot generator features all the story hooks

necessary for GMs to use these maps as part of an interconnected and contained adventure. Featuring eight unique campaign drivers that lead players through several of the book's provided maps, the random tables associated with each stage in the adventure allow for nearly three million different outcomes, making The Game Master's Book of Random Encounters an incredible investment for any would-be GM. The book also includes a Random NPC Generator to help you create intriguing characters your players will love (or love to hate), as well as a Party Makeup Maker for establishing connections among your PCs so you can weave together a disparate group of adventurers with just a few dice rolls. Locations include taverns, temples, inns, animal/creature lairs, gatehouses, courts, ships, laboratories and more, with adventure hooks that run the gamut from frantic rooftop chases to deep cellar dungeon-crawls, with a total of 97 maps, more than 150 tables and millions of possible adventures. No matter where your players end up, they'll have someone or something to persuade or deceive, impress or destroy. As always, the choice is theirs. But no matter what they choose, with The Game Master's Book of Random Encounters, you'll be ready.
