Triumph Bonneville - Ian Falloon 2018-07-17

Triumph Bonneville: 60 Years is a celebration one of motorcycling's most iconic and beloved bikes. First manufactured in Great Britain in 1959, Triumph's legendary model resonates deeply with motorcycle enthusiasts worldwide who love its style, sound, performance, and undeniable coolness. It's no surprise that Triumph was Steve McQueen's favorite ride. The Bonneville's story is one of successes and challenges as Triumph grew steadily in the post-World War II decades to become America's most successful "import" motorcycle marque. Triumph won every championship worth winning, owned the world speed record for fifteen years, and wooed Hollywood's hottest stars. Bonneville was Triumph's halo machine, one of the highest performance motorcycles of the 1960s. However, as competing marques eventually eclipsed the Bonneville in the 1970s, Triumph management struggled, leading first to bankruptcy and then to the demise of the company in 1983. Triumph was resurrected by British industrialist John Bloor in the late 1990s to become a twenty-first century global success story, which includes a revived and thoroughly retro-contemporary Bonneville range.

1969 and Then Some - Robert Wintner 2014-10-14

The year when everything needed to be experienced and tried, when innocence was tempted, played, and lost. 1969 was that pivotal year for the baby boomers. Young and innocent, they were given the ultimate freedoms and were faced with growing up. This touching, hilarious memoir is the true story of a late sixties grand tour of Europe—a life-defining parable, for those who remember and for those who can't. Never before and not since have a handful of seasons so exquisitely defined the difference between right and wrong. With the gift of youth they saw, sensed, and savored the laughably clear distinction between profit motive and greed, between truth and propaganda, between national interest and defense contractors, between a lovely cloud of smoke and the smoke of napalm, and between the phantoms of security and the dangers of complacency and atrophy. Stoned to the gills and then some, these adventurers saw and felt and knew things that no generation before did. Some fully engaged in the counterculture while others merely observed, sticking a left foot in, pulling a left foot out, but not quite jumping to the full hokeypokey. It was an incredible time of self-discovery, of love, and of finding out what you were made of.
