**English-isiZulu / isiZulu-English Dictionary** - C.M. Doke 2014-05-01

The first the English and Zulu Dictionary dictionary was published in 1958 by Wits Unviersity Press and compiled by C.M. Doke and B.W. Vilakazi, intended as a companion to the Zulu-English Dictionary compiled by Doke and Vilakazi (first published 1948 by Wits University Press). The first combined edition with English-isiZulu / isiZulu-English was published in 1990 and remains the definitive authority. A vised isiZulu orthography is introduced in this Fourth Edition in line with the approved PanSALB (2008) orthography revisions undertaken under the auspices and control of the Wits Language Centre, Johannesburg.

**Report of the Auditor-General on the Accounts of the Kwazulu Government and of the Lower Authorities in the Area** - South Africa. Control and Audit Office 1972

[The Social and Political History of Southern Africa's Languages](#) - Tomasz Kamusella 2017-11-21

This book is the first to offer an interdisciplinary and comprehensive reference work on the often-marginalised languages of southern Africa. The authors analyse a range of different concepts and questions, including language and sociality, social and political history, multilingual government, and educational policies. In doing so, they present significant original research, ensuring that the work will remain a key reference point for the subject. This ambitious and wide-ranging edited collection will appeal to students and scholars of southern African languages, sociolinguistics, history and politics.

[The Transformative Power of Language](#) - Russell H. Kaschula 2020-08-31

Language has played a pivotal role in societal transformation in postcolonial Africa towards the creation of globally competitive knowledge societies; however so far, this role has been under-researched and underestimated. This volume addresses this gap in the literature, by bringing together a team of globally-recognised scholars to explore the effect of language on African postcolonial societies, and how it has contributed to achieving 'mental decolonisation'. A range of languages are explored, both imported (ex-colonial) and indigenous African, and case studies from different spheres of public discourse are investigated, from universities to legal settings. Demonstrating that multilingualism is a resource for, rather than barrier to, successful transformation, this book brings the intellectualisation and institutionalisation of African languages to the forefront of development discourse, and provides an insightful snap-shot of how current academic research, public discourse, political activism and social community engagement have contributed to societal transformation in South Africa.

[Mwaambule](#) - 2000

**Trampled No More** - Otrude Nontobeko Moyo 2007

The stories of the Zimbabwean situation, particularly those of the urban townships of Bulawayo, are poignantly narrated through the voices of family members recounting their personal circumstances and what they perceive as the primary factors contributing to their repressed positions in the socio-economical

hierarchy. Using an insider's perspective, Professor Moyo goes behind the scenes in order to dismantle the simplistic "blame game" which asserts that the deterioration of Zimbabwe was caused solely by the current ZANU-PF lead government. The study details the historical context and interpretations of history, which led to the much-discussed Zimbabwean political and economic crisis. Socio-economic policies that shape, and continue to shape, the complex livelihoods of the Zimbabwean people are also attributed to current and future conditions. The author argues that within the Zimbabwean situation these contributors and their counters have not encouraged the prioritization of the needs of the most vulnerable population groups, but rather, that they have a tendency to hinder their general well being by limiting fundamental resources such as access to basic necessities, freedoms, affirmation of communality and individuality. Through the narratives of the Zimbabwean people, Professor Moyo highlights some of the acute strategies they and their families have used to survive as a way to explore future policy avenues that take into account people's "agentiveness" (the capacity to overcome unfavorable conditions by utilizing what little resources are available), Zimbabwe's greatest asset.

**Tree Rings** - Fritz Hans Schweingruber 2012-12-06

At a meeting of dendrochronologists an American colleague described the effects of volcanic eruptions on annual ring formation in bristlecone pines. I knew very little about either volcanoes or American pines! At the same meeting European scientists spoke on the dendrochronological dating of lakeshore settlements and the effects of larch bud moth attack on trees in the Alps. It is possible that American participants were not in a position to fully appreciate these papers either. In other words, dendrochronology is an extremely interdisciplinary science; its facets range from modern statistics on wood anatomy to the history of art. It is

difficult even for dendrochronologists to keep in touch with the whole spectrum, and even more difficult for the layman to obtain an overall view of the many methods and fields of application. In recent times specialisation has begun to hinder communication between the various sectors. Archaeologists, for instance, set up their own dendrochronological laboratories and construct independent chronologies to serve their particular interests. The scientific institutions which previously carried out such work are now turning more and more to strongly statistically or biologically-oriented questions. The full wealth of information contained in tree rings, however, will be revealed only when dendrochronologists make a concerted effort to relate the findings of the different fields. In spite of inevitable specialisation, it is necessary that the expert concern himself with the work of his colleagues.
