Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. The Empath - Malachi Witherwax 2020-02-12
"You should be sorry," he says, "You used to be a low-life scumbag, but now you've turned into something much worse." Two years after a devastating Utang counterattack led to a decisive conclusion to the centuries-long Gneissi-Utang War, the world has been left in shambles. Holes in the ozone layer cause violent and deadly burns to anyone without ample protection, and violent criminals control what is left of society. Constantine Law thrives in this new, post-war world, killing his enemies

remorselessly and living off of scraps of food. He lives with his former college roommate, Scott Adams, a young man from a military family with the odd ability to regenerate lost flesh and bone. Con has a strange ability as well: he often experiences the physical pain and suffering of those near him. Though he has no idea where this curse originated, a secret agent named Sav Hunter thinks she has the answer: Con is an Empath, possibly the only one alive on Planet Gneiss, and his power has the potential to be used as a cataclysmic weapon of war if the Utang get ahold of it. With very little time before the Utang army expands their war effort to the distant planet, Earth, Con must rise above himself in order to prevent potentially billions of innocent casualties on a planet he never even knew existed.
