Bridging Cultures Between

Home and School - Elise

Trumbull 2001-04-01

Bridging Cultures Between

Home and School: A Guide for

Teachers is intended to

stimulate broad thinking about

how to meet the challenges of

education in a pluralistic

society. It is a powerful

resource for in-service and

preservice multicultural

education and professional

development. The Guide

presents a framework for

understanding differences and

conflicts that arise in situations

where school culture is more

individualistic than the value

system of the home. It shares

what researchers and teachers

of the Bridging Cultures

Project have learned from the

experimentation of teacher-

researchers in their own

classrooms of largely

immigrant Latino students and

explores other research on

promoting improved home-

school relationships across cultures. The framework leads to specific suggestions for supporting teachers to cross-

cultural communication;

organization parent-teacher

conferences that work; use

strategies that increase parent

involvement in schooling;

increase their skills as

researchers; and employ

ethnographic techniques to

learn about home cultures.

Although the research

underlying the Bridging

Cultures Project and this Guide

focuses on immigrant Latino

families, since this is the

primary population with which

the framework was originally

used, it is a potent tool for

learning about other cultures

as well because many face

similar discrepancies between

their own more collectivistic

approaches to childrearing and

schooling and the more

individualistic approach of the

dominant culture.

Mindfulness - Ronald Purser

2019-07-09

A lively and razor-sharp

critique of mindfulness as it

has been enthusiastically co-

opted by corporations, public schools, and the US military. Mindfulness is now all the rage. From celebrity endorsements to monks, neuroscientists and meditation coaches rubbing shoulders with CEOs at the World Economic Forum in Davos, it is clear that mindfulness has gone mainstream. Some have even called it a revolution. But what if, instead of changing the world, mindfulness has become a banal form of capitalist spirituality that mindlessly avoids social and political transformation, reinforcing the neoliberal status quo? In *McMindfulness*, Ronald Purser debunks the so-called "mindfulness revolution," exposing how corporations, schools, governments and the military have co-opted it as technique for social control and self-pacification. A lively and razor-sharp critique, Purser busts the myths its salesmen rely on, challenging the narrative that stress is self-imposed and mindfulness is the cure-all. If we are to harness the truly revolutionary

potential of mindfulness, we have to cast off its neoliberal shackles, liberating mindfulness for a collective awakening.

Building Bridges: Interpersonal Skills for a Changing World - William B. Gudykunst 1995

Intercultural Communication - Ling Chen

2017-04-10

This handbook takes a multi-disciplinary approach to offer a current state-of-art survey of intercultural communication (IC) studies. The chapters aim for conceptual comprehension, theoretical clarity and empirical understanding with good practical implications. Attention is mostly on face to face communication and networked communication facilitated by digital technologies, much less on technically reproduced mass communication. Contributions cover both cross cultural communication (implicit or explicit comparative works on communication practices across cultures) and intercultural communication (works on communication involving parties of diverse cultural backgrounds). Topics include generally histories of IC research, theoretical perspectives, non-western theories, and cultural communication; specifically communication styles, emotions, interpersonal relationships, ethnocentrism,

stereotypes, cultural learning, cross cultural adaptation, and cross border messages;and particular context of conflicts, social change, aging, business, health, and new media.

Although the book is prepared for graduate students and academicians, intercultural communication practitioners will also find something useful here.

style, the text presents up-to-date, identity-based frameworks and fresh approaches. Ting-Toomey and Chung encourage students to think critically by asking thought-provoking questions throughout the text and posing intercultural ethical dilemmas for students to ponder. The text offers strong coverage of such topics as the process of ethnic and cultural identity change, culture shock and intercultural adjustment, intercultural verbal communication styles, conflict facework interactions, romantic relationships and raising bicultural children, global identity challenges, and decision-making choices in intercultural ethics.

Facework - William R. Cupach

Designed to acquaint readers with the most up-to-date information on close relationship theory and

research, *Facework* provides a thorough examination of the authors' research, as well as that of others, on the self-aspects of communication in intimate relationships. Gaining face, maintaining face, and losing face all have numerous implications in the management of close relationships. Cupach and Metts make a compelling case for facework as basic relationship currency at any stage of a relationship, whether it be formation, maintenance, or disengagement. Written in a clear, humorous style, *Facework* offers the reader a very pleasurable learning experience and the opportunity to gain deeper insight into the management of problematic situations occurring in close relationships. Professionals and scholars in psychology, sociology, communication, family studies, and social work will find *Facework* a stimulating, informative, and indispensable volume.

Communicating Across Cultures, First Edition Stella Ting-Toomey 2012-04-11
From high-level business negotiations to casual conversations among friends, every interpersonal interaction is shaped by cultural norms and expectations. Seldom is this more clearly brought to light than in encounters between people from different cultural backgrounds, when dissimilar communication practices may lead to frustration and misunderstanding. This thought-provoking text presents a new framework for understanding the impact of culture on communication and for helping students build intercultural communication competence. With illustrative examples from around the globe, the book shows that verbal and nonverbal communication involves much more than transmitting a

particular message--it also reflects each participant's self-image, group identifications and values, and privacy and relational needs. Readers learn to move effectively and appropriately through a wide range of transcultural situations by combining culture-specific knowledge with mindful listening and communication skills.

Throughout, helpful tables and charts and easy-to-follow guidelines for putting concepts into practice enhance the book's utility for students.

The SAGE Encyclopedia of Intercultural Competence -

Janet M. Bennett 2015-03-23
In 1980, SAGE published Geert Hofstede's *Culture's Consequences*. It opens with a quote from Blaise Pascal: "There are truths on this side of the Pyrenees that are falsehoods on the other." The book became a classic—one of the most cited sources in the Social Science Citation Index—and subsequently appeared in a second edition in 2001. This new SAGE Encyclopedia of Intercultural

Competence picks up on themes explored in that book. Cultural competence refers to the set of attitudes, practices, and policies that enables a person or agency to work well with people from differing cultural groups. Other related terms include cultural sensitivity, transcultural skills, diversity competence, and multicultural expertise. What defines a culture? What barriers might block successful communication between individuals or agencies of differing cultures? How can those barriers be understood and navigated to enhance intercultural communication and understanding? These questions and more are explained within the pages of this new reference work. Key Features: 300 to 350 entries organized in A-to-Z fashion in two volumes Signed entries that conclude with Cross-References and Suggestions for Further Readings Thematic "Reader's Guide" in the front matter grouping related entries by broad topic areas Chronology that provides a

historical perspective of the development of cultural competence as a discrete field of study Resources appendix and a comprehensive Index The SAGE Encyclopedia of Intercultural Competence is an authoritative and rigorous source on intercultural competence and related issues, making it a must-have reference for all academic libraries.

This handbook builds and expands on the previous

editions by presenting the rational and scientific foundations of intercultural training and focuses on unique approaches, theories, and areas of the world. In doing so, it gives students, managers, and other professionals undertaking international assignments a theoretical foundation and practical suggestions for improving intercultural training programs.

Understanding Intercultural Communication - Stella Ting-Toomey 2012-01-26

This book introduces students to the foundations of intercultural communication, a growing sub-discipline within Communication. Ting-Toomey and Chung are both well known and active in the scholarly community, and their book features a theme of flexible intercultural communication, positioning itself as an antidote to texts that are prescriptive and rules-y or overly theoretical. Praised for its attention to pedagogy and its holistic approach, the book also avoids some of the pitfalls of the market leader, Samovar, written from a fairly masculinist and US frame.

Culture and Interpersonal Communication - William B. Gudykunst 1988-11

The authors examine the theoretical influence of culture on interpersonal

communication. They provide a framework for guiding future, and for interpreting past, research in the field. Because cross-cultural comparisons of interpersonal communication must be theoretically based, culture must be treated as a variable in research. This concept is presented in the first two chapters and then applied to specific areas of research. Previous research is reinterpreted in the light of this concept, and explanations are provided on how culture has influenced specific areas such as situational factors, verbal and nonverbal communication styles, interpersonal and intergroup relationships.

Managing Intercultural Conflict Effectively Stella Ting-Toomey 2001-07-25

In this volume, Ting-Toomey and Oetzel accomplish two objectives: to explain the culture-based situational conflict model, including the relationship among conflict, ethnicity, and culture; and, second, integrate theory and practice in the discussion of

interpersonal conflict in culture, ethnic, and gender contexts. While the book is theoretically directed, it is also a down-to-earth practical book that contains ample examples, conflict dialogues, and critical incidents. *Managing Intercultural Conflict* Effectively helps to illustrate the complexity of intercultural conflict interactions and readers will gain a broad yet integrative perspective in assessing intercultural conflict situations. The book is a multidisciplinary text that draws from the research work of a variety of disciplines such as cross-cultural psychology, social psychology, sociology, marital and family studies, international management, and communication.

Inter/Cultural

Communication - Anastacia Kurylo 2012-07-23

Today, students are more familiar with other cultures than ever before because of the media, Internet, local diversity, and their own travels abroad. of their own identities and how powerful their identities can be in facilitating change—both in their own lives and in the lives of others.

Communication in Personal Relationships Across Cultures
William B. Gudykunst
1996-08-07

Communication in Personal Relationships Across Cultures examines the communication practices of non-Western cultures. The international cast of contributors assembled here leaves behind the biases typical of most research and theorizing done in this area of communication and enables the reader to develop a thorough understanding of how people communicate in non-Western societies. Chapters focus on communication practices in China, Japan, Korea, Mexico, Brazil, Iran, Africa, and totalitarian societies. Through both emic and etic approaches, this groundbreaking volume explores how members of a culture understand their own communication, and compares the similarities and differences of specific aspects of

communication across cultures.

"Our Voices: Essays in Culture, Ethnicity, and Communication examines intercultural communication through an array of cultural and personal perspectives, with each of its contributors writing a first-person account of his or her experiences in the real world. While most readers are collections of scholarly essays that describe intercultural communication, *Our Voices* presents short, student-oriented readings chosen with an eye toward engaging the reader. Collectively, the readings tackle the key areas of communication--rhetoric, mass communication, and interpersonal communication--using a uniquely expansive and

humanist perspective that provides a voice to otherwise marginalized members of society. Praised by students for its abundance of short, first-person narratives, *Our Voices* traverses topics as diverse as queer identity, racial discourse in the United States, "survival mechanisms" in Jamaican speech, and codes of communication in nontraditional families."-- Google Books viewed Mar. 5, 2021.
